

08/17/12

Minutes
Environmental Management Commission Meeting
Alabama Department of Environmental Management Building
1400 Coliseum Boulevard
Montgomery, Alabama 36110-2400
June 15, 2012

This is to certify that the Minutes contained herein are a true and accurate account of actions taken by the Alabama Environmental Management Commission on June 15, 2012.

John H. Lester, D.V.M.
Chair
Environmental Management Commission

Certified this 17th day of August 2012.

Minutes
Environmental Management Commission Meeting
Alabama Department of Environmental Management Building
1400 Coliseum Boulevard
Montgomery, Alabama 36110-2400
June 15, 2012

Convened: 11:00 a.m.
Adjourned: 11:30 a.m.

1 (The meeting begins at 11:00 a.m.)
2
3 CHAIRMAN LESTER: We call
4 the meeting to order, but we don't have a
5 quorum. Scott had a wreck coming down here
6 this morning, and it wasn't but four of us
7 going to be here, and there's a few out.
8 So we hope he's going to be all right.
9 He's carrying to the hospital.
10 That's what you understand?
11 So we hope he's going to be all
12 right. So as far as our meeting will go,
13 we can go -- we can take no action because
14 there's not a quorum. But we are going to
15 call on the Director to give his report,
16 and then we will set our next meeting --
17 which we can't vote on that either, but we
18 will put it out, and our secretary will
19 contact each member.
20 And if I could, I just wanted
21 Robert as the fourth member today, but he
22 said that wasn't legal. So it's one of
23 these situations you get into when

3 COMMISSION MEMBERS PRESENT:
4 John H. Lester, D.V.M., Chair
5 Terry D. Richardson, Ph.D.
6 Samuel L. Miller, M.D.
7
8 COMMISSION MEMBERS NOT PRESENT:
9 James E. Laier, Ph.D., P.E.
10 H. Lanier Brown, II, Esquire, Vice
11 Chair
12 W. Scott Phillips
13
14 ALSO PRESENT:
15 Robert Tambling, EMC Legal Counsel
16 Debi Thomas, EMC Executive Assistant
17 Lance R. LeFleur, ADEM Director
18
19
20
21
22
23

Page 4

1 everybody's busy and you have a wreck or
2 something. We will all have him in our
3 prayers.
4 Here's the Director.
5 MR. LeFLEUR: Thank you,
6 Mr. Chairman. Would you like for me to
7 drag this out as long as I can?
8 CHAIRMAN LESTER: The good
9 thing about him, he meets with each
10 Commissioner individually, wherever you
11 live. Some of them's in north Alabama,
12 south Alabama, west Alabama, east Alabama,
13 everywhere. And he meets with us and goes
14 through everything that's happening, in
15 detail. That's the long version he's
16 talking about.
17 So each Commissioner is always
18 abreast of what is going on as far as the
19 Department and what's happening in the
20 state. And especially with this budget
21 we're going through now, and how he and the
22 Department survive going through this, I
23 don't know. I've never seen anything like

Page 5

1 this where the State is taking our money,
2 turns around and withholds a million of it,
3 and then gives it back to us. It's our
4 money of -- our deposit. When he gets
5 doing that, I don't know how he does it,
6 but he and the Department does. And the
7 attorney keeps us out of jail, and Debi
8 keeps us going good. So that's my speech.
9 MR. LeFLEUR: I think you've
10 illustrated that there's a lot of people
11 involved in making things work.
12 Good morning, and welcome to all
13 of you present at this fifth of the six
14 scheduled meetings of the Alabama
15 Environmental Management Commission for
16 fiscal year 2012.
17 I will briefly report on the
18 fiscal year 2012 and fiscal year 2013
19 budgets, and then focus the bulk of this
20 report on what I believe are crucial
21 decisions regarding the future operation of
22 the Department. I will close with a brief
23 summary of environmental legislative

Page 6

1 activity during the recently completed
2 legislative session.
3 2012 budgets -- we are now in
4 the final one-third of fiscal year 2012.
5 There have been no additional cuts to this
6 year's budget since we last met. As a
7 result of the implementation of previously
8 announced cost cutting measures, the
9 Department is on target to operate for the
10 remainder of the year within our budget as
11 it now stands.
12 I can also report that EPA has
13 now released the remaining five percent of
14 our federal funding allotment, which was
15 being held back, so our liquidity has
16 improved.
17 2013 budgets -- the Legislature
18 recently finished its 2012 regular session,
19 as well as a special session. The final
20 State General Fund fiscal year 2012 budget
21 that was passed by the Legislature, and
22 subsequently signed by Governor Bentley,
23 provided the Department with \$2.9 million

Page 7

1 for our operating budget, which is 30
2 percent less than last year, and a special
3 line item of \$350,000 to fund the
4 Concentrated Animal Feeding Operations
5 Program.
6 At this funding level, the
7 Department will only be able to operate the
8 water program and generate sufficient
9 matching funds to secure all available
10 federal funding by using one-time available
11 resources in fiscal '13. Those one-time
12 resources will not be available in fiscal
13 2014. This is cause for grave concern
14 moving forward.
15 It should further be noted that
16 the legislature transferred \$4.1 million
17 out of the Scrap Tire Fund into the General
18 Fund in the same action that appropriated
19 the \$3.2 million to the Department's
20 budget.
21 The Scrap Tire Fund, funded with
22 a special one dollar fee on each new tire
23 purchase, was created for the express

Page 8

1 purpose of cleaning up scrap tire dumps and
2 promoting beneficial reuse of scrap tires
3 to keep new dumps from being created.
4 With this action, in effect, the
5 Department's budget was cut from
6 approximately \$4.2 million in fiscal year
7 2012 to \$3.2 million in fiscal year 2013,
8 and that \$3.2 million in fiscal '13 was
9 funded with Scrap Tire money. The
10 remaining approximately one million dollars
11 taken out of the Scrap Tire Fund went into
12 other uses within the State General Fund.
13 2014 budgets -- as we look at
14 the path forward to fiscal year 2014 and
15 beyond, we must consider that the Governor
16 and the Legislature have clearly spoken.
17 No new General Fund revenue will be
18 available in fiscal year 2014.
19 Additionally, demands for the limited
20 available funding for critical State
21 services are anticipated to increase in
22 fiscal year 2014.
23 Since the Department actually

Page 9

1 provided funds to, rather than receiving
2 funds from, the General Fund in fiscal year
3 2013, it is necessary to prepare for, at
4 best, no funding of the Department from the
5 State general funds in fiscal year 2014.
6 The consequences of continuing
7 the funding scheme utilized in 2013 are
8 far-reaching. Many state agencies are in
9 similar situations. So before presenting a
10 plan on how to address our situation, it's
11 important to consider questions that the
12 people of Alabama should rightly ask of any
13 agency in these difficult financial times.
14 First, "Are the Department's
15 services necessary?" Second, "What is the
16 quality of the service provided by the
17 Department?" And third, "What is the proper
18 funding level for the Department?"
19 Addressing the first question,
20 the Department was created in 1982 to be a
21 one-stop shop for the issuance of permits
22 required by the federal laws known as the
23 Clean Air Act; the Clean Water Act; and the

Page 11

1 state agency whenever possible, rather than
2 having them provided by EPA.
3 With the following slides, I
4 would like to address the remaining
5 questions. Our second question is, "What is
6 the quality of the service provided by the
7 Department?" And please direct your
8 attention to the monitor, and I will
9 apologize if you're unable to see all of
10 the detail on these slides. I have copies
11 of them for anybody who would like copies
12 of these slides at the end of this
13 presentation.
14 The red map you see before you
15 was generated by the United States Office
16 of Inspector General, an independent
17 federal agency. It, along with the maps
18 that will follow, was included in a report
19 published some six months ago in December
20 2011 by the Office of Inspector General.
21 The report assesses the
22 performance of the air, water, and land
23 programs for each environmental agency in

Page 10

1 Resource Conservation and Recovery Act, or
2 RCRA.
3 The State was delegated
4 authority to administer the requirements of
5 these federal laws when the State met EPA
6 standards for having enabling legislation
7 in place and an entity with the necessary
8 resources to issue, determine compliance
9 with, and appropriately enforce the
10 conditions of the required permits.
11 If the State ceases to meet EPA
12 standards for any delegated program, the
13 authority to administer that program will
14 be withdrawn and the responsibilities for
15 the program will revert to EPA.
16 The answer to the question "Are
17 the Department's services required?" Is that
18 the services are required by federal
19 statutes. However, the services can be
20 provided by either EPA or the State.
21 Since enactment of the federal
22 statutes, it has been the policy of the
23 State to have the services provided by a

Page 12

1 each of the 50 states. The Office of
2 Inspector General is an authoritative,
3 independent, and impartial entity. These
4 maps were generated from data in the EPA
5 Office of Enforcement and Compliance
6 Assurance database for the period 2003
7 through 2009.
8 This report, including the maps,
9 is the only one of its kind comparing the
10 performance of all the states. The ranking
11 criteria include rates of inspections,
12 identification of significant noncompliance
13 facilities or high priority violators, and
14 penalties assessed.
15 As you can see, hopefully, from
16 the legend at the lower right of each -- at
17 the lower right, each state is ranked in
18 one of four quartiles. The Department's
19 air program was ranked as the best in the
20 nation, and obviously it was therefore in
21 the top quartile.
22 This next slide shows the
23 Department's water program, which was

Page 13

1 likewise in the top quartile. It's a
2 little difficult to see, but the light
3 blue, just as the light red on the previous
4 slide, indicates the top quartile.
5 On this slide you can see that
6 the Department's land program is in the
7 third quartile.
8 The map you now see ranks the
9 overall programs for each of the states.
10 The dark green states are those with two or
11 three programs in the top quartile. There
12 are ten states in this top category. As
13 you can see, California, Florida, North
14 Carolina, and others are in this group.
15 Alabama is also in this group. The ten
16 states are not ranked one through ten, but
17 rather are simply identified as being the
18 ten best performers.
19 Other independent studies,
20 including one funded by the Kaufman
21 Foundation, which was reported on in the
22 May 31st, 2012 edition of the Birmingham
23 News, indicate environmental programs in

Page 15

1 to last bar on the left, all data on this
2 and the next three slides is from 2008,
3 which is the most current data available
4 for all states. The data is from the
5 Environmental Council of States, which is
6 the organization to which all states
7 belong. This is the most reliable and
8 current data available.
9 The graph shows the total
10 dollars of funding for each state listed.
11 The next to last bar is the Department's
12 fiscal year 2013 budget. Below the state
13 name -- I don't know if it's able to be
14 seen -- but below the state's name is the
15 national ranking among the 50 states. As I
16 hope you can see, Alabama has the lowest
17 level of total funding among the region
18 four states and is ranked 46th among all
19 states in terms of total dollars of funding
20 from all sources for environmental
21 programs.
22 This next slide shows the
23 percentage of total funding that comes from

Page 14

1 Alabama are highly regarded.
2 The take-away message is that
3 knowledgeable, independent, qualified
4 parties using objective measures deemed the
5 Department's performance to be of high
6 quality.
7 That brings us to our third
8 question. The third and final question at
9 hand is, "What is the proper funding level
10 for the Department?" The slide before
11 you -- it is a little difficult to read --
12 but the slide before you shows the total
13 amount of funding for environmental
14 programs in each of the eight southeastern
15 states comprising EPA region four.
16 Environmental programs in all
17 states are funded from three sources --
18 state general funds, shown in this slide in
19 blue; federally provided funds, the red
20 portion; and other state funds, which
21 includes permit fees, earmarked funds, and
22 the like, and that's the green portion.
23 With the exception of the next

Page 16

1 all state sources. State sources include
2 general funds, permit fees, earmarked
3 funds, and any other funds derived from the
4 state sources.
5 As you can see, Alabama obtained
6 something less than 60 percent of its total
7 funding from state sources and ranks 44th
8 nationally. This chart compares the level
9 of state funding, which is the set of
10 columns on the left, and the total funding,
11 the set of columns on the right, for the
12 region four states and all states
13 nationally.
14 The left hand columns under both
15 headings, showing the dollar amounts of
16 funding, are the same data that is shown in
17 graph form on the slide before the last
18 one. Since there are large variations
19 among the 50 states, it's helpful to view
20 funding levels at the states on some more
21 comparable basis.
22 If you look under the
23 subheadings titled per capita, there is a

Page 17

1 comparison of the funding by each listed
2 state on a per capita basis. This can be
3 looked on as the average financial burden
4 for environmental regulation carried by
5 each citizen in the state.
6 As you can see, in Alabama our
7 citizens carry a burden of slightly less
8 than seven dollars in state provided
9 funding for environmental regulation.
10 Nationally we rank 49th in state provided
11 funding.
12 The take-away message from these
13 last three slides is that, by whatever
14 measure -- total dollars, percentage of
15 total budget, or per capita -- in 2008 the
16 Department was clearly an exceptionally low
17 cost provider of environmental regulation.
18 When taken in the context of the
19 first three slides, the message is that the
20 Department has historically provided
21 exceptionally high quality environmental
22 regulation at an exceptionally low cost.
23 Now, I will show you one final

Page 19

1 with our region four sister states, Alabama
2 environmental funding has experienced
3 disproportionately larger cuts than other
4 states. It is anticipated that Alabama's
5 fiscal year 2013 ranking on funding will
6 decline from the 44th, 46th, and 49th
7 ranking shown on the earlier slides.
8 The funding outlook for the
9 Department for fiscal year 2014, the 2014
10 budget, if nothing is done, is worse than
11 fiscal year 2013. Quite frankly, without
12 action, ADEM will be unable to fund
13 operation of the water division.
14 In 2008, the Department was
15 already an exceptionally low cost
16 provider. And with the cost cutting
17 measures implemented since then, especially
18 over the last few years, there is very
19 little, if any, room for further cost cuts
20 to help the budget situation.
21 Federal funding for all states
22 is declining, so that is not a feasible
23 source to make up for declining or

Page 18

1 slide. This graph shows the Department's
2 General Fund appropriations since 1989.
3 The amounts are in actual dollars and not
4 inflation adjusted.
5 Please direct your attention to
6 2008. For those of you who can't see the
7 years on this slide, the 2008 bar is the
8 one toward the right hand side that is the
9 highest among the last six bars. The
10 previous slides -- these previous slides
11 showing the funding levels were based on
12 2008 data.
13 Please note that the -- that
14 2008 was the high watermark in general
15 funding in the last 20 years. The State
16 General Fund appropriation for 2013 is 57
17 percent below the 2008 level. It's well-
18 known that virtually all states have
19 experienced general fund budget constraints
20 since 2008. Actual data, up to the fiscal
21 year 2013 budget year, will be available
22 from ECOS in the coming months.
23 However, based on discussions

Page 20

1 disappearing state general funds.
2 The potential far reaching
3 impacts of inadequate funding include the
4 withdrawal of the State's authority to
5 issue NPDES water permits. Were that to
6 occur, EPA would assume that responsibility
7 and would dictate both the conditions
8 included in those permits and the timing
9 for permit issuance. All new and existing
10 industry would go to EPA region four in
11 Atlanta for water permits.
12 For these reasons, it is
13 imperative that the Department take steps
14 to assure adequate funding by looking to
15 the only remaining source of funding, user
16 permit fees. In the coming months, we will
17 be engaging various stakeholders throughout
18 the State to address the situation. The
19 message delivered to you here today will be
20 delivered to potentially impacted
21 stakeholders.
22 At this time, I anticipate
23 coming to this Commission one year from now

Page 21

1 in June of 2013 with proposed rulemaking to
2 increase permit fees by approximately \$3
3 million to \$4 million. This amount will be
4 spread across the entire regulated
5 community. The percentage increase will be
6 quite substantial, in the range of 50
7 percent.

8 Some industries and groups of
9 permit holders will be more adversely
10 impacted than others because permit fees
11 represent a greater portion of their
12 overall cost. The proposed fee increase
13 will not represent an increase in overall
14 funding for the Department, rather it will
15 be a replacement of funding recently lost
16 from the State General Fund.

17 This fee increase will also be
18 fully in keeping with the directive of the
19 Governor's office, and in particular the
20 Director of Finance's request that state
21 agencies make every effort to increase
22 fees, and thus avoid the need for any
23 additional tax increases.

Page 23

1 law.

2 Senate bill 477, enrolled as act
3 2012-598, prohibits any environmental
4 regulation without due process of law. We
5 do not expect this to affect any of the
6 Department's functions, as all our current
7 regulatory processes comport with the
8 requirements of due process.

9 House bill 341, enrolled as act
10 2012-317, exempts motor fuel storage tanks
11 from the requirements of the Uniform
12 Environmental Covenants Act. Contrary to
13 previous practice, landowners will no
14 longer have restrictive covenants placed on
15 their property when a motor fuel spill is
16 not cleaned up to unrestricted use.

17 Landowners will, however, continue to be
18 required to disclose any spill or
19 contaminant to the subsequent purchasers
20 under state property law provisions.

21 House bill 556, enrolled as act
22 2012-434, extended the moratorium on the
23 Department's ability to issue any permits

Page 22

1 Moving on, let me now, quickly,
2 update you on four environmental bills that
3 passed in the 2013 legislature and were
4 signed into law by Governor Bentley.

5 During the 2012 legislative session, four
6 bills passed and were signed into law by
7 Governor Bentley that have some impact upon
8 the environment.

9 House bill 447, enrolled as act
10 2012-551, requires financial assurance for
11 any facility classified as a centralized
12 wastewater treatment facility. Although
13 the question of requiring financial
14 assurance in the Department's permits has
15 long been debated, this is the first time
16 that such a bonding requirement will be
17 imposed on any industry here in Alabama
18 outside the solid waste arena.

19 Whether this will lead to
20 similar requirements on other industries
21 remains to be seen. We will be coming to
22 the Commission in the future meetings to
23 undertake rulemaking to implement this new

Page 24

1 for new public solid waste landfill
2 facilities until May 31, 2014. This
3 moratorium period was originally
4 established to allow the Department and the
5 Department of Public Health to review their
6 duties and responsibilities pursuant to the
7 Solid Waste and Recyclable Materials
8 Management Act and to make recommendations
9 for necessary legislation or undertake
10 rulemaking to implement enhancements
11 identified during this review process.

12 In connection with this, it was
13 previously reported that the Department has
14 signed a formal contract with Auburn
15 University to assist the Department in a
16 review by providing administrative and
17 technical support and in evaluating public
18 input on potential enhancements to the
19 Solid Waste Management Program.

20 Auburn is planning to conduct
21 the first of several public meetings in
22 Montgomery near the end of June and will
23 launch a Web site for this project soon.

Page 25

1 Numerous other activities are
2 currently ongoing, such as evaluation of
3 other EPA region four states landfill
4 siting requirements, as well as their
5 landfill permitting processes. The
6 Department hopes to announce the kickoff of
7 this effort in the very near future.
8 I'd like to now -- the Alabama
9 Department of Environmental Management has
10 been recognized for a second consecutive
11 year for its leadership and innovation
12 regarding the electronic flow of data and
13 sharing of data through the Exchange
14 Network.
15 The Department was recently
16 honored by The U.S. EPA with the
17 presentation of the Exchange Network
18 Leadership Award. The Exchange Network
19 Leadership Award was presented for the
20 Department's -- and I quote -- outstanding
21 leadership in achieving the Exchange
22 Network's strategic vision.
23 The recent award follows on the

Page 26

1 heels of the Department's receipt in 2011
2 of the Exchange Network Progress Award for
3 outstanding progress in meeting the
4 Exchange Network's goals.
5 I'd like to ask Eric Cleckler to
6 come forward and receive this award. He
7 will be receiving it on behalf of all those
8 in our information services branch, as well
9 as those in the divisions that support the
10 Exchange Network, all of whom have been
11 doing exemplary work. Eric,
12 congratulations.
13 (Audience applause)
14 MR. LeFLEUR: For those of
15 you involved with the Exchange Network in
16 the other divisions, I'd like for you to
17 stand and be recognized, if you're here.
18 (Audience applause)
19 MR. LeFLEUR: This is a very
20 important initiative, both for our
21 Department and for all states that are
22 involved in EPA -- with EPA.
23 Once again, let me close with my

Page 27

1 thanks to you for serving the state as
2 Commissioners on the Environmental
3 Management Commission and for allowing me
4 to serve the state in my current capacity.
5 If there are any questions, I
6 will be pleased to try to answer them now.
7 CHAIRMAN LESTER: Any
8 Commissioners?
9 DR. RICHARDSON: I don't
10 have any questions. I have a couple
11 comments I'd like to make.
12 I think it's quite commendable
13 where the program stands with respect to
14 the nation-wide rankings. I'd like to
15 commend you and your staff for that.
16 Because, you know, it's striking to me when
17 I see that for two of our three programs
18 that, you know, we're up there with -- just
19 right off the bat -- California and
20 Florida, which I think are two of the
21 environmental leaders as far as enforcement
22 and regulation and policy. And it puts us
23 above a couple of others that I would also

Page 28

1 put at the top, like Oregon and
2 Washington. And I just think that given
3 the incredible fiduciary constraints that
4 you guys are under, that that's incredible,
5 and I appreciate you-all's efforts.
6 MR. LeFLEUR: I appreciate
7 that comment, and I will accept it on
8 behalf of the people of ADEM who have done
9 this work over the years.
10 CHAIRMAN LESTER: We thank
11 you.
12 (Audience applause)
13 MR. LeFLEUR: Any other
14 questions?
15 CHAIRMAN LESTER: No. Thank
16 you.
17 At this point, I will announce
18 that our next meeting will be August 17th.
19 Can't vote on it or anything. And also I
20 will say that this gathering is now
21 dismissed.
22 (The meeting ended at 11:30 a.m.)
23 *****

1 STATE OF ALABAMA)
2 COUNTY OF MONTGOMERY)
3

4 I hereby certify that the above
5 proceedings were taken down by me and
6 transcribed by me using computer-aided
7 transcription and that the above is a true
8 and accurate transcript of said proceedings
9 taken down by me and transcribed by me.

Attachment 1

Amended 06/08/12

AGENDA*
MEETING OF THE
ALABAMA ENVIRONMENTAL MANAGEMENT COMMISSION

DATE: June 15, 2012

TIME: 11:00 a.m.

LOCATION: Alabama Department of Environmental Management (ADEM) Building
Alabama Room (Main Conference Room)
1400 Coliseum Boulevard
Montgomery, Alabama 36110-2400

<u>ITEM</u>	<u>PAGE</u>
1. Consideration of minutes of meeting held on April 20, 2012**	2
2. Report from the Director	2
3. Report from the Commission Chair	2
4. Consideration of adoption of proposed amendments to ADEM Admin. Code Division 335-7, Water Supply Program Regulations	2
5. Other business	2
6. Future business session	2

* The Agenda for this meeting will be available on the ADEM website,
www.adem.alabama.gov, under Environmental Management Commission.

** The Minutes for this meeting will be available on the ADEM website
under Environmental Management Commission.

1. CONSIDERATION OF MINUTES OF MEETING HELD ON APRIL 20, 2012
2. REPORT FROM THE DIRECTOR
3. REPORT FROM THE COMMISSION CHAIR
4. CONSIDERATION OF ADOPTION OF PROPOSED AMENDMENTS TO ADEM ADMIN. CODE DIVISION 335-7, WATER SUPPLY PROGRAM REGULATIONS

The Commission will consider the adoption of proposed amendments to ADEM Admin. Code Division 335-7, Water Supply Program Regulations. The Department is proposing to amend Chapters 335-7-2; 335-7-4; 335-7-5; 335-7-6; 335-7-7; 335-7-10; 335-7-11; and 335-7-14 to make administrative and technical clarifying changes. The Department held a public hearing on the proposed amendments on May 2, 2012.

5. OTHER BUSINESS
6. FUTURE BUSINESS SESSION
