### **ADEM Air Permit and Air Sticker Waiver for Gasoline Loading- Extension**

Due to the continued fuel access issues caused by Hurricane Michael, the previous enforcement discretion issued by the Department has been extended until **November 9, 2018**. The Department will continue to use discretion regarding enforcement actions for the loading of gasoline at Alabama bulk gasoline terminals and/or refineries by tank trucks that do not possess valid ADEM or Jefferson County Air Permits and Air Stickers.

Tank trucks desiring to load without the aforementioned Air Permits and Air Stickers must state to terminal personnel that they are requesting to load due to the Hurricane Michael emergency and that there is no alternative to obtain gasoline products to service their respective States and/or clients. **Please be reminded that, according to USDOT rules, all tank trucks loading must possess a current vapor tightness test (Method 27).**
