Re: DRAFT LOCAL LIMITS
JEFFERSON COUNTY COMMISSION
FIVE MILE CREEK WWTP
NPDES PERMIT NO. AL0026913

Dear Mr. Denard:

The Alabama Department of Environmental Management transmitted proposed local limits documents for your review on February 27, 2019. Following that review, the Jefferson County Commission advised ADEM of their intention to establish a sampling program to collect site-specific data related to the operation of the Five Mile Creek WWTP. As of this date, ADEM has not received results from that sampling effort.

This letter is to request that sampling results be submitted to ADEM no later than 30 days from the date of this letter. Alternately, if sampling is no longer proposed we request notification of that decision within the same time period. If sampling results are not received, ADEM proposes to proceed with the public notice of local limits as drafted.

Should you have any questions about this process, please contact Alex Chavers by email at achavers@adem.alabama.gov or by phone at (334) 271-7851.

Sincerely,

Scott Ramsey, Chief
