### Site Conditions:

- Site was mostly dry with water and mud in drainage areas

### Activities:

- Crews dug a drainage ditch on the northeastern slope to address standing water
- Air monitoring planned for this week is being postponed due to weather
- More heavy equipment was moved out
- Growth of grass throughout the site will continue to be monitored

The Alabama Department of Environmental Management (ADEM) has created Moody Fire Update to inform the public of ongoing efforts to extinguish the fire at the Environmental Landfill LLC vegetative waste disposal site near Moody.
