

MOODY FIRE UPDATE

Feb. 16, 2023 Report

by aldeptenvironmentalmanagement | Feb 16, 2023 | ADEM | 0 comments

Site conditions:

- Amount of smoke today is negligible compared to two weeks ago
- Most of the smoke that is observable is occurring where operations are taking place
- Associated odor is also less noticeable and detectable mainly in close proximity to where work is being performed

Activities:

- Grading and filling operations being performed at the north and northwest sections of the site
- Plan is to continue this work in these sections tomorrow as well

The Alabama Department of Environmental Management (ADEM) has created Moody Fire Update to inform the public of ongoing efforts to extinguish the fire at the Environmental Landfill LLC vegetative waste disposal site near Moody.
