

# MOODY FIRE UPDATE

---

## March 1, 2023 Report

by aldeptenvironmentalmanagement | Mar 1, 2023 | ADEM | 0 comments

### Site Conditions:

- The site was drier than yesterday, but still muddy in places.
- No smoke was observed, but the odor was still prevalent.

### Activities:

- More dirt was added at the top of the hill on the southern area, and dirt work continued on the northern area.
- EPA said 188 truckloads of material were brought in from the borrow pit on Tuesday, and they anticipated a similar amount today depending on the weather.
- Rain over the next several days were expected to curtail work until Sunday.

The Alabama Department of Environmental Management (ADEM) has created Moody Fire Update to inform the public of ongoing efforts to extinguish the fire at the Environmental Landfill LLC vegetative waste disposal site near Moody.
