

MOODY FIRE UPDATE

March 20, 2023 Report

by aldeptenvironmentalmanagement | Mar 21, 2023 | ADEM | 0 comments

Site Conditions:

- Smoke cannot be observed on the site
- Odor can be detected throughout the site, more noticeable near the entrance

Activities:

- Over the weekend, the majority of the northern area, Section B, was seeded; expected to begin spreading hay in the area on Tuesday
- The southern area, Section A, has been completely seeded and covered with hay; grass can be seen continuously along the slope
- Plan to place aggregate along the edges of the site today as BMP
- The offsite borrow pit will begin closing operations today; the area will have hay and seed put down over the next week
- EPA plans to continue the air monitoring until March 24

The Alabama Department of Environmental Management (ADEM) has created Moody Fire Update to inform the public of ongoing efforts to extinguish the fire at the Environmental Landfill LLC vegetative waste disposal site near Moody.
