

PRELIMINARY DETERMINATION

PERMIT MAJOR MODIFICATION

Chambers County Landfill, LLC  
420 West 7<sup>th</sup> Street P.O. Box 86  
West Point, GA 31833

Chambers County C&D Landfill  
Permit No. 09-02

April 30, 2021

Amwaste, LLC, a division of Matter Management Enterprises, LLC, on behalf of Chambers County Landfill, LLC submitted to the Alabama Department of Environmental Management (ADEM) a request to modify the Chambers County C&D Landfill and Solid Waste Disposal Facility Permit No. 09-02. On March 24, 2021, by Resolution, the Chambers County Commission granted approval to handle and dispose of industrial waste from the existing service area and to increase the existing permitted daily volume for the Chambers County C&D Landfill. The modification includes a change in classification of the landfill from construction and demolition to industrial, and an increase in the allowable daily volume from 75 tons per day to 2,500 tons per day. All other permit conditions will remain the same.

The waste stream for the Chambers County C&D Landfill would be non-putrescible and non-hazardous construction and demolition waste, rubbish, yard debris, and tires as defined by ADEM Rule 335-13-1-.03 in addition to waste from fiberglass manufacturing process waste, off-spec fiberglass insulation, and process waste from process equipment cleanout generated during the manufacture of fiberglass insulation from Knauf Insulation Plant in Lanett, Alabama. The service area for the Chambers County Landfill, LLC would remain the states of Alabama and Georgia. The maximum average daily volume of waste disposed at the Chambers County C&D Landfill would increase from 75 tons a day to 2,500 tons a day.

The landfill is located in the Northeast  $\frac{1}{4}$  of the Southeast  $\frac{1}{4}$  and the Southeast  $\frac{1}{4}$  of the Northeast  $\frac{1}{4}$  of Section 36, Township 22 North, Range 27 East in Chambers County, Alabama. The permitted facility consists of approximately 50.48 acres with 19.59 acres for disposal operations.

The Land Division has determined that the modification of the permit meets the applicable requirements of ADEM's Administrative Codes Division 13.

# *SOLID WASTE DISPOSAL FACILITY PERMIT*

**PERMITTEE:** Chambers County Landfill, LLC

**FACILITY NAME:** Chambers County C&D Landfill

**FACILITY LOCATION:** Northeast ¼ of the Southeast ¼ and the Southeast ¼ of the Northeast ¼ of Section 36, Township 22 North, Range 27 East in Chambers County, Alabama. The total permitted area is approximately 50.48 acres with 19.59 acres approved for disposal.

**PERMIT NUMBER:** 09-02

**PERMIT TYPE:** Industrial

**WASTE APPROVED FOR DISPOSAL:** Non-putrescible and non-hazardous construction and demolition waste, yard debris, tires, and rubbish as defined by ADEM Rule 335-13-1-.03, waste from fiberglass manufacturing process waste, off-spec fiberglass insulation, and process waste from process equipment cleanout generated during the manufacture of fiberglass insulation from the Knauf Insulation Plant in Lanett, Alabama.

**APPROVED WASTE VOLUME:** Maximum Daily Volume of 2,500 tons per day

**APPROVED SERVICE AREA:** States of Alabama and Georgia

In accordance with and subject to the provisions of the Alabama Solid Wastes and Recyclable Materials Management Act, as amended, Code of Alabama 1975, SS 22-27-1 to 22-27-27 ("SWRMMA"), the Alabama Environmental Management Act, as amended, Code of Alabama 1975, SS 22-22A-1 to 22-22A-16, and rules and regulations adopted thereunder, and subject further to the conditions set forth in this permit, the Permittee is hereby authorized to dispose of the above-described solid wastes at the above-described facility location.

**ISSUANCE DATE:** April 24, 2019

**EFFECTIVE DATE:** April 24, 2019

**MODIFICATION DATE:** August 21, 2020, May 3, 2021, XXXXXX

**EXPIRATION DATE:** April 23, 2024

**ALABAMA DEPARTMENT OF ENVIRONMENTAL MANAGEMENT  
SOLID WASTE PERMIT**

---

Permittee: Chambers County Landfill, LLC  
420 West 7<sup>th</sup> Street P.O. Box 86  
West Point, GA 31833

Landfill Name: Chambers County C&D Landfill

Landfill Location: A part of the Northeast ¼ of the Southeast ¼ and the Southeast ¼ of the Northeast ¼ of Section 36, Township 22 North, Range 27 East in Chambers County, Alabama

Permit Number: 09-02

Landfill Type: Industrial Landfill

Pursuant to the Alabama Solid Wastes and Recyclable Materials Management Act, Code of Alabama 1975, §§ 22-27-1, *et seq.*, as amended, and attendant regulations promulgated thereunder by the Alabama Department of Environmental Management (ADEM), this permit is issued to Chambers County Landfill, LLC (hereinafter called the Permittee), to operate a solid waste disposal facility, known as the Chambers County C&D Landfill.

The Permittee must comply with all terms and conditions of this permit. This permit consists of the conditions set forth herein (including those in any attachments), and the applicable regulations contained in Chapters 335-13-1 through 335-13-16 of the ADEM Administrative Code (ADEM Admin. Code). Rules cited are set forth in this document for the purpose of Permittee reference. Any Rule that is cited incorrectly in this document does not constitute grounds for noncompliance on the part of the Permittee. Applicable ADEM Administrative Codes are those that are in effect on the date of issuance of this permit or any revisions approved after permit issuance.

This permit is based on the information submitted to the Department August 28, 2018, for permit renewal, on July 21, 2020 and March 22, 2021, for modification, and as amended, for permit renewal and known as the Permit Application (hereby incorporated by reference and hereinafter referred to as the Application). Any inaccuracies found in this information could lead to the termination or modification of this permit and potential enforcement action. The Permittee must inform ADEM of any deviation from or changes in the information in the Application that would affect the Permittee's ability to comply with the applicable ADEM Admin. Code or permit conditions.

This permit is effective as of **April 24, 2019**, modified **August 21, 2020**, **May 3, 2021**, and **XXXXXX**, and shall remain in effect until **April 23, 2024**, unless suspended or revoked.

Date Signed

## SECTION I. STANDARD CONDITIONS

### A. Effect of Permit

The Permittee is allowed to dispose of nonhazardous solid waste in accordance with the conditions of this permit and ADEM Admin. Code Div. 13. Issuance of this permit does not convey property rights of any sort or any exclusive privilege, nor does it authorize any injury to persons or property, any invasion of other private rights, or any infringement of state or local laws or regulations. Except for actions brought under Code of Alabama 1975, §§ 22-27-1, *et seq.*, as amended, compliance with the conditions of this permit shall be deemed to be compliance with applicable requirements in effect as of the date of issuance of this permit and any future revisions.

### B. Permit Actions

This permit may be suspended, revoked or modified for cause. The filing of a request for a permit modification or the notification of planned changes or anticipated noncompliance on the part of the Permittee, and the suspension or revocation does not stay the applicability or enforceability of any permit condition.

### C. Severability

The provisions of this permit are severable, and if any provision of this permit, or the application of any provision of this permit to any circumstance, is held invalid, the application of such provision to other circumstances, and the remainder of this permit, shall not be affected thereby.

### D. Definitions

For the purpose of this permit, terms used herein shall have the same meaning as those in ADEM Admin. Code Division 13, unless this permit specifically provides otherwise; where terms are not otherwise defined, the meaning associated with such terms shall be as defined by a standard dictionary reference or the generally accepted scientific or industrial meaning of the term.

1. "EPA" for purposes of this permit means the United States Environmental Protection Agency.
2. "Permit Application" for the purposes of this permit, means all permit application forms, design plans, operational plans, closure plans, technical data, reports, specifications, plats, geological and hydrological reports, and other materials which are submitted to the Department in pursuit of a solid waste disposal permit.

### E. Duties and Requirements

#### 1. Duty to Comply

The Permittee must comply with all conditions of this permit except to the extent and for the duration such noncompliance is authorized by a variance granted by the Department. Any permit noncompliance, other than noncompliance authorized by a variance, constitutes a violation of Code of Alabama 1975, §§ 22-27-1 *et seq.*, as amended, and is grounds for enforcement action, permit suspension, revocation, modification, and/or denial of a permit renewal application.

#### 2. Duty to Reapply

If the Permittee wishes to continue an activity regulated by this permit after the expiration date of this permit, the Permittee must apply for and obtain a new permit. The renewal application must be submitted to the Department at least 180 days before this permit expires.

3. Permit Expiration

This permit and all conditions therein will remain in effect beyond the permit's expiration date if the Permittee has submitted a timely, complete application as required by Section I.E.2., and, through no fault of the Permittee, the Department has not made a final decision regarding the renewal application.

4. Need to Halt or Reduce Activity Not a Defense

It shall not be a defense for the Permittee in an enforcement action that it would have been necessary to halt or reduce the permitted activity to maintain compliance with the conditions of this permit.

5. Duty to Mitigate

In the event of noncompliance with this permit, the Permittee shall take all reasonable steps to minimize releases to the environment, and shall carry out such measures as are reasonable to prevent significant adverse impacts on human health or the environment.

6. Proper Operation and Maintenance

The Permittee shall at all times properly operate and maintain all facilities and systems of control (and related appurtenances) that are installed or used by the Permittee to achieve compliance with the conditions of this permit.

7. Duty to Provide Information

If requested, the Permittee shall furnish to ADEM, within a reasonable time, any information that ADEM may reasonably need to determine whether cause exists for denying, suspending, revoking, or modifying this permit, or to determine compliance with this permit. If requested, the Permittee shall also furnish the Department with copies of records kept as a requirement of this permit.

8. Inspection and Entry

Upon presentation of credentials and other documents as may be required by law, the Permittee shall allow the employees of the Department or their authorized representative to:

- a. Enter at reasonable times the Permittee's premises where the regulated facility or activity is located or conducted, or where records must be kept under the conditions of this permit.
- b. Have access to and copy, at reasonable times, any records that must be kept under the conditions of this permit.
- c. Inspect, at reasonable times, any facilities, equipment (including monitoring and control equipment), practices, or operations regulated or required under this permit.
- d. Sample or monitor, at reasonable times, any substances or parameters at any location for the purposes of assuring permit compliance or as otherwise authorized by Code of Alabama 1975, §§ 22-27-1 *et seq.*

9. Monitoring, Corrective Actions, and Records

- a. Samples and measurements taken for the purpose of monitoring or corrective action shall be representative of the monitored activity. The methods used to obtain representative samples to be analyzed must be the appropriate method from Chapter 335-13-4 or the methods as specified in the Application attached hereto and incorporated by reference. Laboratory methods must be those specified in Standard Methods for the Examination of Water and Wastewater (American Public Health Association, latest edition), Methods for Chemical Analysis of Water and Wastes

(EPA-600/4-79-020), Test Methods for Evaluating Solid Waste, Physical/Chemical Methods (EPA Publication SW-846, latest edition), other appropriate EPA methods, or as specified in the Application. All field tests must be conducted using approved EPA test kits and procedures.

- b. The Permittee shall retain records, at the location specified in Section I.I., of all monitoring, or corrective action information, including all calibration and maintenance records, copies of all reports and records required by this permit, and records of all data used to complete the application for this permit for a period of at least three years from the date of the sample, measurement, report or record or for periods elsewhere specified in this permit. These periods may be extended by the request of the Department at any time and are automatically extended during the course of any unresolved enforcement action regarding this facility.
  - c. Records of monitoring and corrective action information shall include.
    - i. The exact place, date, and time of sampling or measurement.
    - ii. The individual(s) and company who performed the sampling or measurements.
    - iii. The date(s) analyses were performed.
    - iv. The individual(s) and company who performed the analyses.
    - v. The analytical techniques or methods used.
    - vi. The results of such analyses.
  - d. The Permittee shall submit all monitoring and corrective action results at the interval specified elsewhere in this permit.
10. Reporting Planned Changes

The Permittee shall notify the Department, in the form of a request for permit modification, at least 90 days prior to any change in the permitted service area, increase in the waste received, or change in the design or operating procedure as described in this permit, including any planned changes in the permitted facility or activity which may result in noncompliance with permit requirements.

11. Transfer of Permit

This permit may be transferred to a new owner or operator. All requests for transfer of permits shall be in writing and shall be submitted on forms provided by the Department. Before transferring ownership or operation of the facility during its operating life, the Permittee shall notify the new owner or operator in writing of the requirements of this permit.

12. Certification of Construction

The Permittee may not commence disposal of waste in any new cell or phase until the Permittee has submitted to the Department, by certified mail or hand delivery, a letter signed by both the Permittee and a professional engineer stating that the facility has been constructed in compliance with the permit.

The Department must inspect the constructed cells or phases before the owner or operator can commence waste disposal unless the Permittee is notified that the Department will waive the inspection.

13. Compliance Schedules

Reports of compliance or noncompliance with or any progress reports on interim and final requirements contained in any compliance schedule required and approved by the Department shall be submitted no later than 14 days following each schedule date.

14. Other Noncompliance

The Permittee shall report all instances of noncompliance with the permit at the time monitoring reports are submitted.

15. Other Information

If the Permittee becomes aware that information required by the Application was not submitted or was incorrect in the Application or in any report to the Department, the Permittee shall promptly submit such facts or information. In addition, upon request, the Permittee shall furnish to the Department, within a reasonable time, information related to compliance with the permit.

F. Design and Operation of Facility

The Permittee shall maintain and operate the facility to minimize the possibility of a fire, explosion, or any unplanned sudden or non-sudden release of contaminants (including leachate and explosive gases) to air, soil, groundwater, or surface water, which could threaten human health or the environment.

G. Inspection Requirements

1. The Permittee shall comply with all requirements of ADEM Admin. Code Division 13.
2. The Permittee shall conduct random inspections of incoming loads.
3. Records of all inspections shall be included in the operating record.

H. Recordkeeping and Reporting

1. The Permittee shall maintain a written operating record at the location specified in Section I.I. The operating record shall include:
  - a. Documentation of inspections and maintenance activities.
  - b. Daily Volume reports.
  - c. Personnel training documents and records.
  - d. Groundwater monitoring records if required.
  - e. Explosive gas monitoring records if required.
  - f. Copies of this Permit and the Application.
  - g. Copies of all variances granted by the Department, including copies of all approvals of special operating conditions.

2. Quarterly Volume Report

Beginning with the effective date of this permit, the Permittee shall submit, within thirty (30) days after the end of each calendar quarter, a report summarizing the daily waste receipts for the previous (just ended) quarter. Copies of the quarterly reports shall be maintained in the operating record.

3. Monitoring and Corrective Action Reports

The Permittee shall submit reports on all monitoring and corrective activities conducted pursuant to the requirements of this permit, including, but not limited to, groundwater, surface water, explosive gas and leachate monitoring. Groundwater monitoring is not required at this time, but if it is determined that monitoring is necessary, the Permittee shall conduct monitoring and submit reports as directed by the Department. Likewise, if necessary, explosive gas monitoring must be conducted and reports submitted as directed by the Department. Copies of the groundwater and explosive gas monitoring reports shall be maintained in the operating record.

4. Availability, Retention, and Disposition of Records

- a. All records, including plans, required under this permit or Division 13 must be furnished upon request, and made available at reasonable times for inspection by any officer, employee, or representative of the Department.
- b. All records, including plans, required under this permit or Division 13 shall be retained by the Permittee for a period of at least three years. The retention period for all records is extended automatically during the course of any unresolved enforcement action regarding the facility, or as requested by the Department.
- c. A copy of records of waste disposal locations and quantities must be submitted to the Department and local land authority upon closure of the facility.

I. Documents to be maintained by the Permittee

The Permittee shall maintain, at the Chambers County C&D Landfill office, the following documents and amendments, revisions and modifications to these documents until an engineer certifies closure.

1. Operating record.
2. Closure Plan.

J. Mailing Location

All reports, notifications, or other submissions which are required by this permit should be sent via signed mail (i.e. certified mail, express mail delivery service, etc.) or hand delivered to:

Mailing Address:  
Chief, Solid Waste Branch, Land Division  
Alabama Department of Environmental Management  
P.O. Box 301463  
Montgomery, AL 36130-1463

Physical Address:  
Chief, Solid Waste Branch, Land Division  
Alabama Department of Environmental Management  
1400 Coliseum Blvd.  
Montgomery, Alabama 36110-2400

K. Signatory Requirement

All applications, reports or information required by this permit, or otherwise submitted to the Department, shall be signed and certified by the owner as follows:

1. If an individual, by the applicant.
2. If a city, county, or other municipality or governmental entity, by the ranking elected official, or by a duly authorized representative of that person.
3. If a corporation, organization, or other legal entity, by a principal executive officer, of at least the level of Vice President, or by a duly authorized representative of that person.

L. Confidential Information

The Permittee may claim information submitted as confidential if the information is protected under Code of Alabama 1975, §§ 22-39-18, as amended.

M. State Laws and Regulations

Nothing in this permit shall be construed to preclude the initiation of any legal action or to relieve the Permittee from any responsibilities, liabilities, or penalties established pursuant to any applicable state law or regulation.

SECTION II. GENERAL OPERATING CONDITIONS

A. Operation of Facility

The Permittee shall operate and maintain the disposal facility consistent with the Application, this permit, and ADEM Admin. Code Division 13.

B. Open Burning

The Permittee shall not allow open burning without prior written approval from the Department and other appropriate agencies. A burn request should be submitted in writing to the Department outlining why that burn request should be granted. This request should include, but not be limited to, specifically what areas will be utilized, types of waste to be burned, the projected starting and completion dates for the project, and the projected days and hours of operation. The approval, if granted, shall be included in the operating record.

C. Prevention of Unauthorized Disposal

The Permittee shall follow the approved procedures for the detecting and preventing the disposal of free liquids, regulated hazardous waste, PCB's, and medical waste at the facility.

D. Unauthorized Discharge

The Permittee shall operate the disposal facility in such a manner that there will be no water pollution or unauthorized discharge. Any discharge from the disposal facility or practice thereof may require a National Pollutant Discharge Elimination System permit under the Alabama Water Pollution Control Act.

E. Industrial Waste Disposal

The Permittee shall dispose of industrial waste as required by 335-13-4-.21(1)(c), and as specified in the Application.

F. Boundary Markers

The Permittee shall ensure that the facility is identified with a sufficient number of permanent boundary markers that are at least visible from one marker to the next.

G. Certified Operator

The Permittee shall be required to have an operator certified by the Department on-site during hours of operation, in accordance with the requirements of ADEM Admin. Code 335-13-12.

SECTION III. SPECIFIC REQUIREMENTS FOR INDUSTRIAL WASTE LANDFILLS

A. Waste Identification and Management

1. Subject to the terms of this permit, the Permittee may dispose of the nonhazardous solid wastes listed in III.B. Disposal of any other wastes is prohibited, except waste granted a temporary or one-time waiver by the Director.
2. The total permitted area for the Chambers County C&D Landfill is approximately 50.48 acres, with approximately 19.59 acres permitted for disposal operations.
3. The maximum average daily volume of waste disposed at the facility shall not exceed 2,500 tons per day, except as provided under Rule 335-13-5-.06(2)(a)5. The average daily volume shall be computed as specified by Rule 335-13-5-.06(2)(a)5.(i).

B. Waste Streams

The Permittee may accept for disposal non-putrescible and non-hazardous construction and demolition waste, yard debris, tires and rubbish as defined by ADEM Rule 335-13-1-.03, waste from fiberglass manufacturing process waste, off-spec fiberglass insulation, and process waste from process equipment cleanout generated during the manufacture of fiberglass insulation from the Knauf Insulation Plant in Lanett, Alabama.

C. Service Area:

The Permittee is allowed to receive for disposal waste from the states of Alabama and Georgia.

D. Waste Placement, Compaction, and Cover

All waste shall be confined to an area as small as possible and placed onto an appropriate slope not to exceed 4 to 1 (25%) or as approved by the Department. All waste shall be spread in layers two feet or less in thickness and thoroughly compacted weekly with adequate landfill equipment prior to placing additional layers of waste or placing the weekly cover. A minimum of six inches of compacted earth or other alternative cover material approved by the Department shall be added at the conclusion of each week's operation unless a variance is granted in Section VIII.

E. Liner Requirements. At this time, the Permittee shall not be required to install a liner system. The base of the landfill shall be a minimum of five (5) feet above the highest measurement of the groundwater table.”

F. Security

The Permittee shall provide artificial and/or natural barriers, which prevent entry of unauthorized vehicular traffic to the facility.

G. All Weather Access Roads

The Permittee shall provide an all-weather access road to the dumping face that is wide enough to allow passage of collection vehicles.

H. Adverse Weather Disposal

The Permittee shall provide for disposal activities in adverse weather conditions.

I. Personnel

The Permittee shall maintain adequate personnel to ensure continued and smooth operation of the facility.

J. Environmental Monitoring and Treatment Structures

The Permittee shall provide protection and proper maintenance of environmental monitoring and treatment structures.

K. Vector Control

The Permittee shall provide for vector control as required by ADEM Admin. Code Division 13.

L. Bulk or Noncontainerized Liquid Waste

The Permittee shall not dispose of bulk or noncontainerized liquid waste, or containers capable of holding liquids, unless the conditions of Rule 335-13-4-.23(1)(j) are met.

M. Empty Containers

Empty containers larger than 10 gallons in size must be rendered unsuitable for holding liquids prior to disposal in the landfill unless otherwise approved by the Department.

N. Other Requirements

The Department may enhance or reduce any requirements for operating and maintaining the landfill as deemed necessary by the Land Division.

O. Other Permits

The Permittee shall operate the landfill according to this and any other applicable permits.

P. Scavenging and Salvaging Operations

The Permittee shall prevent scavenging and salvaging operations, except as part of a controlled recycling effort. Any recycling operation must be in accordance with plans submitted and approved by the Department.

Q. Signs

If the landfill is available to the public or commercial haulers, the Permittee shall provide a sign outlining instructions for use of the site. The sign shall be posted and have the information required by Rule 335-13-4-.23(1)(f).

R. Litter Control

The Permittee shall control litter.

S. Fire Control

The Permittee shall provide fire control measures.

SECTION IV. GROUNDWATER MONITORING REQUIREMENTS:

Groundwater monitoring is not required at this landfill provided that the waste stream is in accordance with Section III.B. Should any waste be disposed other than the waste streams indicated in Section III.B., the Department may require that groundwater-monitoring wells be installed.

SECTION V. GAS MONITORING REQUIREMENTS

The permittee must install and maintain an explosive gas monitoring system in accordance with ADEM Admin. Code, Division 13.

SECTION VI. SURFACE WATER MANAGEMENT

The Permittee shall construct and maintain run-on and run-off control structures to control the discharge of pollutants in stormwater. Any discharges from drainage control structures shall be permitted through a discharge permit issued by the ADEM Water Division.

SECTION VII. CLOSURE AND POST-CLOSURE REQUIREMENTS

The Permittee shall close the landfill and perform post-closure care of the landfill in accordance with Division 13.

A. Final Cover

The Permittee shall grade final soil cover such that surface water does not pond over the permitted area as specified in the Application. The final cover system shall comply with ADEM Admin. Code Division 13.

B. Vegetative Cover

The Permittee shall establish a vegetative or other appropriate cover within 90 days after completion of final grading requirements in the Application. Preparation of a vegetative cover shall include, but not be limited to, the placement of seed, fertilizer, mulch, and water.

C. Notice of Intent

The Permittee shall place in the operating record and notify the Department of their intent to close the landfill prior to beginning closure.

D. Completion of Closure Activities

The Permittee must complete closure activities of each landfill unit in accordance with the Closure Plan within 180 days of the last known receipt of waste.

E. Certification of Closure

Following closure of each unit, the Permittee must submit to the Department a certification, signed by an engineer, verifying the closure has been completed according to the Closure Plan.

F. Post-Closure Care Period

Post-closure care activities shall be conducted after closure of each unit throughout the life of this permit and continuing for a period of thirty (30) years following closure of the facility. The Department may shorten or extend the post-closure care period applicable to the solid waste disposal facility. The Permittee shall reapply in order to fulfill the post-closure care requirements of this permit.

G. Post-Closure Maintenance

The Permittee shall provide post closure maintenance of the facility to include regularly scheduled inspections. This shall include maintenance of the cover, vegetation, monitoring devices and pollution control equipment and correction of other deficiencies that may be observed by ADEM. Monitoring requirements shall continue throughout the post closure period as determined by the Department unless all waste is removed and no unpermitted discharge to waters of the State has occurred.

H. Post-Closure Use of Property

The Permittee shall ensure that post closure use of the property never be allowed to disturb the integrity of the final cover, liner, or any other component of the containment system. This shall preclude the growing of deep-rooted vegetation on the closed area.

I. Certification of Post-Closure

Following post-closure of each unit, the Permittee must submit to the Department a certification, signed by an engineer, verifying the post-closure has been completed according to the Post-Closure Plan.

J. Notice in Deed to Property

The Permittee shall record a notation onto the land deed containing the property utilized for disposal within 90 days after permit expiration, revocation or when closure requirements are achieved as determined by the Department as stated in the Application. This notation shall state that the land has been used as a solid waste disposal facility, the name of the Permittee, type of disposal activity, location of the disposal facility and beginning and closure dates of the disposal activity.

K. Recording Instrument

The Permittee shall submit a certified copy of the recording instrument to the Department within 120 days after permit expiration, revocation, or as directed by the Department as described in the Application.

L. Removal of Waste

If the Permittee, or any other person(s), wishes to remove waste, waste residues, or any liner or contaminated soils, the owner must request and receive prior approval from the Department.

SECTION VIII. VARIANCES

There are no approved variances for the Chambers County C&D Landfill.

Any variance granted by the Department may be terminated by the Department whenever the Department finds, after notice and opportunity for hearing, that the petitioner is in violation of any requirement, condition, schedule, limitation or any other provision of the variance, or that operation under the variance does not meet the minimum requirements established by state and federal laws and regulations or is unreasonably threatening the public health.

# **Permit Modification Application**

Mr. Jared Kelly, P.E.  
Chief, Solid Waste Engineering Branch  
Alabama Department of Environmental Management  
Solid Waste Branch / Land Division  
1400 Coliseum Boulevard  
Montgomery, AL 36110

**Re: Chambers County C&D Landfill  
Major Modification: Industrial Classification & Tonnage Increase - Revised  
ADEM Permit No. 09-02**

Dear Mr. Kelly:

Chambers County Landfill, LLC, a Matter Management Company, is submitting this revised Major Modification application to the Alabama Department of Environmental Management (ADEM) for the following: first, a change in the classification of the landfill from construction and demolition to industrial, and second an increase in the allowable daily volume from 75 tons per day to 2,500 tons per day. Please consider this submittal as a revision and replacement of the Major Modification application previously submitted and dated March 19, 2021 for the subject facility.

The entire revised application is attached to this letter. Enclosed you will find: 1) ADEM Form 439, signed by Chambers County Landfill, LLC; 2) a copy of Resolution 12-21-2020, executed by the Chambers County Commission; 3) Proof of Public Hearing Advertisement, page 9 of the November 18, 2020 of *The LaFayette Sun* newspaper; and 4) a map and listing of adjacent property owners. A check in the amount of \$4,375 for the Major Modification of an Industrial Landfill permit was recently sent to the Department. The check was made payable to the Alabama Department of Environmental Management.

Should you have any questions, or require additional information, please let us know.

Sincerely,

**Chambers County Landfill, LLC**

DATE

RESOLUTION 12-21-2020

WHEREAS, Chambers County, Alabama (the "County"), developed a Solid Waste Management Plan, prepared September, 2014, and approved by ADEM Solid Waste Branch; and,

WHEREAS, the County, as the current owner of the Chambers County C&D Landfill, is requesting a permit modification and an expansion of the existing landfill; and,

WHEREAS, the existing landfill is within the County limits and therefore the jurisdiction of the County and is outside of the municipal limits of any municipality; and,

WHEREAS, in accordance with Section 22-27-48 of the Code of Alabama, the local government having jurisdiction must approve this application in order to submit a permit application to ADEM; and,

WHEREAS, until such time as the County has acted, ADEM will not consider or made any determination regarding whether the Site meets appropriate geological, environmental, design or other scientific or engineering standards established by federal or state agencies charged with approving, permitting, or monitoring solid waste disposal sites; and,

WHEREAS, the County recognizes that only ADEM can issue a permit for the modification to the permit for a landfill; and

WHEREAS, a memo along with an application and various supporting documents was submitted to the County Commission on or about October 28, 2020. This memo and all of the exhibits, appendices and other attachments thereto are collectively referred to as the "Application". The Application is attached to this resolution as Attachment I and is incorporated herein for all purposes; and

WHEREAS, The Application requested approval for an expansion of the County's existing Construction/Demolition Inert Landfill Unit (as defined in Alabama Admin. Code R. 335-13-1-.03(30) (2005), as amended from time to time) to be located on the real property described in the Application and in Exhibit "B" as set forth in Attachment I (including the 250 contiguous acres) (collectively referred to hereinafter as the "Property"), and its related waste handling facilities (collectively, the "Landfill") to handle and dispose of

industrial waste from the existing permitted service area (the "Service Area"), and to increase the existing permitted daily volume to 2500 tons (the "Daily Volume"); and

WHEREAS, the County has previously operated a landfill at the property which includes portions of the Property; and

WHEREAS, the County has requested that the County Commission act as follows: (1) to approve an increase to the capacity of the existing C&D Landfill by expanding the footprint, (2) to approve the Property as the site for an Industrial Landfill Unit, (3) to approve an increase to the Daily Volume, (4) to approve a change to the classification of the Landfill from Construction/Demolition Inert Landfill Unit to an Industrial Landfill Unit, and (5) to approve the modification to the permit and to take such other action as ADEM requires as necessary to implement items (1) through (4) above, all in accordance with Section 22-27-48 of the Code. The foregoing action shall be referred to as the "Landfill Expansion"; and

WHEREAS, the County believes that the Application by the County is consistent with the requirements of Section 22-27-48 of the Code, that such proposal is consistent with the County's Solid Waste Management Plan, and that such facility will, among other things, enhance the economic development of the County, will protect the existing Landfill, will increase the life of the existing Landfill, will protect the environment, will insure the continued safe and environmentally secure disposal of permitted materials, will reduce unauthorized dumps in the area and will generate fee income for the County; and

WHEREAS, the Application seeks host government approval for the Landfill Expansion, including without limitation the Property and the increase in Daily Volume pursuant to Section 22-27-48 of the Code; and

WHEREAS, on December 21, 2020, at 3:30 p.m., a public hearing was held pursuant to Section 22-27-48 of the Code, after the notice required pursuant to Section 22-27-48 of the Code, with a copy of such notice attached hereto as Attachment II; and

WHEREAS, the County desires to approve the Landfill Expansion, the Property as an Industrial Landfill Unit and to approve the Daily Volumes.

NOW THEREFORE, BE IT RESOLVED, by the County Commission of Chambers County, Alabama (the "Commission"), that the following resolutions are hereby approved and adopted:

RESOLVED, in order to approve the Property proposed by the County for a waste disposal site as required pursuant to Section 22-27-48 of the Code on the Application of the County, the County Commission does hereby approve the Property as defined in the WHEREAS clauses as a waste disposal site for Industrial Solid Waste materials.

BE IT FURTHER RESOLVED, that the solid waste handling facilities related to the Landfill located at the above described Property, as defined in the WHEREAS clauses of this resolution, are hereby approved by the County Commission as a solid waste disposal site for Industrial Solid Waste materials.

BE IT FURTHER RESOLVED, that the Daily Volume, as defined in the WHEREAS clauses of this resolution, is confirmed and approved by the County Commission.

BE IT FURTHER RESOLVED, that the Service Area continues as it currently exists and such Service Area is hereby confirmed and approved by the County Commission.

BE IT FURTHER RESOLVED, that the proposed Landfill Expansion, as defined in the WHEREAS clauses, and any permit modifications relating thereto is approved by the County Commission.

BE IT FURTHER RESOLVED, that the foregoing approvals are based on the following findings:

1. The WHEREAS clauses set forth in this resolution are found to be true, correct and complete.
2. Attachment I, including the Application, and the other material contained therein is found to be true, correct and complete.
3. The evaluation prepared by the Engineer for the County's current operator is set forth in the Exhibit "C" to Attachment I. This evaluation is incorporated herein for all purposes. The evaluation is hereinafter referred to as the "Evaluation". The Evaluation is substantially true in all material respects and such Evaluation is adopted as findings of the County Commission.

4. Based on the information set forth in the Attachment I, the Application, the Evaluation, the information submitted at the public hearing, the information set forth in the Solid Waste Management Plan, and other information available to each County Commission member, the County Commission finds that:

A. The Landfill and the Landfill Expansion are consistent with the Solid Waste Management Plan, as amended.

B. The Solid Waste Management Plan has been previously approved by the County and approved by ADEM.

C. The Property is located within the boundaries of the County and is located outside of any municipal limits of any municipality.

D. The Landfill Expansion is consistent with the existing use of the Property, the Property is located near major transportation arteries, including industrial access roads and highways, and the Property will provide better highway access to the existing C&D Landfill.

E. The Landfill, as expanded, is in an area which is close to industries which generate permitted landfill materials.

F. Locating the Landfill on the expanded footprint will minimize the costs of disposing of Industrial and C&D waste generated in such area. In addition, the proposed expanded location will insure that the existing Landfill continues to be an environmentally secure disposal site.

G. Locating the Landfill on the expanded footprint will substantially reduce the costs of closing the existing landfill.

H. The Landfill is not expected to have any adverse impact on public safety and the waste stream expected to be accepted at the Industrial Landfill is benign.

I. The Landfill will have no adverse social or economic impact. It is anticipated that the Landfill will have a significant positive impact on the economic development of the County and will reduce

the cost of disposal for all residents in the County as compared to hauling the materials to a landfill outside of the County or further away. In addition, the additional fee income resulting from the increase in the Daily Volumes will be a significant financial benefit to the County.

J. The Landfill Expansion is not expected to have an adverse impact on existing property values near the facility because the area is the current host for the existing Landfill.

K. The Landfill Expansion should have a positive effect on public health by reducing illegal dumps in the area.

L. Expanding the existing Landfill will reduce the cost and increase the environmental security of the existing landfill at the site.

M. In addition to the foregoing, the following findings are made:

1) The consistency of the proposal with the jurisdiction's solid waste management need as identified in its plan;

2) The relationship of the proposal to local planned or existing development or the absence thereof, to major transportation arteries and to existing state primary and secondary roads;

3) The location of a proposed facility in relationship to existing industries in the state that generate large volumes of solid waste, or the relationship to the areas projected for development of industries that will generate solid waste;

4) Costs and availability of public services, facilities and improvements required to support a proposed facility and protect public health, safety and the environment;

5) The impact of a proposed facility on public safety and provisions made to minimize the impact on public health and safety; and

6) The social and economic impacts of a proposed facility on the affected community, including changes in property values, and social or community perception.

BE IT FURTHER RESOLVED, that the County Commission finds and declares, as the legislative body of the County, that it is in the best interest of the citizens of the County, to approve the conversion from construction/demolition landfill to industrial landfill for the existing Chambers County C&D Landfill and the

County does hereby approve the Landfill Expansion (as defined in the Application) including without limitation the tonnage increase to 2500 and does hereby approve the Property as a new landfill disposal area.

BE IT FURTHER RESOLVED, that the Chairman of the County Commission and/or the County Administrator and/or the County's current operator are hereby instructed to take whatever action is necessary or appropriate to carry out the intention of these resolutions to secure a permit for the Landfill Expansion and a modification of the existing Landfill permit in accordance with the Application and this resolution, including but without limitation, preparing submissions to ADEM and seeking ADEM approvals.

BE IT FURTHER RESOLVED, that the Property approved pursuant to this resolution, the Industrial Landfill, and the Landfill Expansion as set forth in the Application and this resolution are in accordance with the County's Solid Waste Management Plan.

BE IT FURTHER RESOLVED, all Attachments to this Resolution are incorporated herein for all purposes.

APPROVED this 21<sup>st</sup> day of December, 2020.

Debra H. Riley  
Vice- Chairman of the County Commission

Attest: County Manager
