**Alabama Underground and Aboveground Storage Tank Trust Fund**  
**Development/Purge Water Handling Unit Rate**

The Development/Purge Water Handling Unit Rate is applicable for these situations:

- 1) Consultant collects development/purge water and treats the water on-site with a carbon treatment unit.
- 2) Consultant transports the development/purge water to their office for disposal to the sanitary sewer
- 3) Consultant transports the development/purge water to their office for later pickup by a waste hauling firm
- 4) Consultant transports the development/purge water to an off-site permitted treatment facility
- 5) Consultant meets waste hauler at site for collection and hauling of development/purge water after water has been temporarily stored on-site.

This fee does not apply to these situations:

- 1) Development/purge water is collected from the site by a MEME vendor during an active MEME event
- 2) Development/purge water is treated on-site through an operating groundwater treatment unit (i.e. DPVE)
