

### **Guidance for Searching in eFile with SRF Project Numbers**

Each applicant is assigned an eight-digit SRF number in the format of CSXXXXXX (CS010001 for example). A unique number is assigned for an applicant's individual project(s) applying for funding. This is notated as "-XX" on the SRF number (CS010001-01 for the specific applicant and the first project for example). Searching the SRF number will provide results for all projects that have been applied for (01, 02, 03, etc. as applicable).

**Note:** It is possible for an applicant to be assigned multiple SRF numbers depending on the date of submittal of an application. If multiple numbers have been utilized, search for both for a complete record of the applicant's funding requests.
