Description: EA Engineering, Science, and Technology, Inc., PBC (EA) offers state-approved Underground Storage Tank (UST) Operator Training to public and privately owned fuel storage facilities, including bulk (FCT and AHS) facilities. An experienced trainer will come to your facility and provide an on-site powerpoint course. A site walk of your UST system may be available upon request. Combined Class A/B training as well as Class C training is available. Up to two (2) Class C training sessions can be performed daily (AM/PM) to accommodate large staff sizes or shift schedules. Students receive reference materials during the course. Each student that successfully completes training receives a personal Operator Training Certificate.

UST Training, Inc.

UST Training's nationally recognized Class A/B training program is approved by the Alabama Department of Environmental Management and is 100% online and available 24/7. With over 30 years of experience in the UST industry, we know UST operators: our Class A/B course is interactive, image driven, and narrated by UST experts with real life examples to give you a great training experience. Plus we offer lots of expert advice on how to be the best operator you can be.
