

**335-1-6-.01            Applicability.**

(a) The provisions of this Chapter shall apply to any person making application to the Department for issuance, reissuance or modification of a permit, registration, license or certification, except as provided in Rule 335-1-6-.03.

(b) Beginning January 1, 2028, and each year thereafter, the application fees specified in 335-1-6, with the exception of those for Well Driller Licenses found in Schedule G, shall be subject to a cost adjustment based on the following procedure: By the end of January of 2028, and each January thereafter, the Director shall submit an increase for the fees specified in 335-1-6, based on the percentage increase in the Consumer Price Index for All Urban Consumers (CPI-U) (All Items - U.S. City Average) maintained by the U.S. Department of Labor, Bureau of Labor Statistics, for the immediately preceding calendar year, January to December, rounded down to the nearest five dollars. The recommendation shall be submitted to the Chair of the Legislative Council, for the Legislative Council's review and approval. In the event the recommendation is not disapproved by the Legislative Council by the end of March of each year, the recommendation shall be deemed to be approved, and the new fees will be effective on April 1 of each year. In the event one or more years elapses during which there is no adjustment as provided for herein, the same procedure may be followed to obtain a net cumulative increase since the previous increase.

(c) In accordance with 335-1-6-.01(b), the Department may begin adjusting application fees by the CPI on April 1, 2028. Effective April 1, 2028, all application fees will be found on the Department's website.

Permit Application Fees.

(1) Except as provided in paragraph (2) of this Rule, any person making application to the Department for the issuance, reissuance or modification of a permit shall be subject to a three-part application fee consisting of the following:

(a) a fee of \$2,015 per application relating to a greenfield site. This fee shall not apply to Schedule B or to AFO/CAFO registration in Schedule D if continuing education certification is submitted with initial registration and each annual registration request as required by Rule 335-6-7-.18;

(b) a fee which shall be the sum of the fees for each applicable type of permit application, and each action deemed necessary to complete evaluation of the application, as specified in Fee Schedules A through K; and

(c) a public hearing fee of \$10,565 if a public hearing relating to the permit application is held.

(2) Any person making application to the Department for modification of a permit to change the name of the permittee only or to transfer the permit only shall be subject to a \$1,000 fee per application.

(3) Fees required by AFO/CAFO registration may be suspended in part or whole by category by the Director to reflect the budgetary circumstances of the AFO/CAFO program.

**335-1-6-.07****Payment Of Fees.**

(1) Payment of permit application/registration fees required under subparagraphs (1)(a) and (1)(b) or paragraph (2) of Rule 335-1-6-.04 shall be included with the permit application/registration. No permit application shall be processed without payment of such fees.

(2) Any fee required under subparagraph (1)(c) of Rule 335-1-6-.04 shall be billed to the applicant. Payment of such fee shall be made within thirty days of the invoice date. No final decision regarding the permit application shall be made until after payment of such fee. Failure to make payment as provided herein shall constitute cause for non-processing/denial of the permit application.

(3) Payment of fees required under Rule 1-6-.05 shall be made within thirty days of the date of the invoice which the Department shall send to the person making the application or request or requiring the certificate.

(4) Payment of fees required under Rule 335-1-6-.06 shall be included with the application for such license, variance or certification. No application shall be processed without payment of such fees.

(5) All fees paid pursuant to the requirements of this Chapter shall be non-refundable.

(6) All fees and remittances shall be made payable to the Alabama Department of Environmental Management.

**FEE SCHEDULE C (Continued)**

**EXPLANATORY NOTES**

- (1) Fee applies to initial unit (design) of a given type at a facility.
- (2) Fee applies to additional designs and/or units of the same type unit or process at a given facility.
- (3) Refer to rule 335-14-8-.04(3) for classification of minor mods. Each separate mod request requires a separate fee payment. Multiple changes to a permit consolidated in one mod request will be charged a single fee for each applicable unit. (e.g., A facility permitted for container storage and a landfill who requests modifications to both units will be charged the appropriate fee for each unit.)

- (4) Refer to rule 335-14-8-.04(2) for classification of major mods. Each separate mod request requires a separate fee payment. Multiple changes to a permit consolidated in one mod request will be charged a single fee for each applicable unit. (e.g., A facility permitted for container storage and a landfill who requests modifications to both units will be charged the appropriate fee for each unit.)
- (5) If clean closure is not attained and a post-closure permit is required, then the cost is credited to the post-closure permit fee. Closure plan fees shall be charged per unit to be closed.
- (6) Fees for miscellaneous units (rule 335-14-5-.24) and for other units not specifically listed shall be assessed based on the fees established for the permit type most closely analogous to the activity in question. For example, an open burning/open detonation unit would be assessed fees for thermal treatment; a stabilization unit would be assessed fees for treatment; etc.
- (7) Fee applies to all treatment units except land treatment units and thermal treatment units.
- (8) Fee applies to incinerators, boilers, industrial furnaces, and other thermal treatment units.
- (9) Fee applies to each hazardous waste management unit which is subject to post-closure permitting requirements. Multiple units which are closed under a single (common) cap will be charged the fee for a single post-closure unit. Fee also applies to certification of post-closure plans required by order.
- (10) Fee applies to permits which include solid waste management unit (SWMU) requirements (pursuant to ADEM Admin. Code rs. 335-14-5-.06(12), 335-14-5-.19, 335-14-8-.02(5)(d), but do not include regulated hazardous waste management unit requirements. This fee applies to facilities which have completed all closure and post-closure requirements for regulated hazardous waste management units, but do not complete all SWMU requirements.
- (11) Fee applies to modifications which are not unit specific (i.e., mods not affecting the unit type, design, or configuration). Examples: contingency plan changes, transfer of ownership, personnel training plan changes, changes to groundwater monitoring system, etc.
- (12) Additive fees are levied in addition to base application fees as applicable. Total fees due are sum of base application fees and additive fees applicable to a given facility/application.
- (13) Initial fee applies to the first contaminant plume at a facility. The additional unit fee will be charged for each additional, separate plume at the same facility.

- (14) Fee applies to each trial burn performed.
- (15) Initial fee applies to the first investigation at a facility imposed by the Department under ADEM Admin. Code r. 335-14-5-.06(12). The fee is applicable at the time the investigation is imposed. The additional unit fee will be charged for each additional, separate investigation at the same facility (e.g. an investigation of a newly discovered area of contamination). This fee is also applicable to any investigation required by statute or order that is designed to assess the extent of contamination at a facility or a single unit within a facility.
- (16) Fee applies to each separate corrective action program proposal or corrective measures implementation plan submitted. CAPs which integrate multiple technologies (e.g., pump and treat, biological, chemical, physical, etc.) into a single system shall be charged a single fee for the system. Facilities which have multiple separate programs (e.g., two separate groundwater contamination plumes, one remediated using pump and treat and the other using vapor extraction) shall be charged a separate fee for each separate system. This fee is also applicable to passive corrective measures (e.g. land-use restrictions, monitored natural attenuation).
- (17) Fee applies to each separate corrective action management unit (CAMU) designated/approved at a facility. This fee is in addition to any other fees applicable to any hazardous waste management units included within a CAMU.
- (18) Fee based on type of CAMU unit proposed (Storage; Treatment [except Land Treatment]; Disposal/Land Treatment). See Closure Plan Fees for unit types above.
- (19) Fee applies to facilities which receive hazardous waste from off-site sources (e.g., commercial facilities).
- (20) Fee applies to thermal treatment units required to conduct indirect risk assessments.
- (21) Initial fee applies to the first CS work plan at a facility. The additional unit fee will be charged for each additional, separate CS workplan at the same facility.
- (22) Initial fee applies to the first IM work plan at a facility. The additional unit fee will be charged for each additional, separate IM workplan at the same facility.
- (23) Initial fee applies to the first CMS work plan at a facility. The additional unit fee will be charged for each additional, separate CMS workplan at the same facility.

- (24) Fee is charged per each RFA Report prepared for a given facility.
- (25) Landfill 5-Year Review Certification fee applies to operating hazardous waste land disposal facilities subject to 335-14-5-.05.

(1). These are modifications as included in ADEM Admin. Code rule 335-13-5-.06(2).

(2). These are modifications as included in ADEM Admin. Code rule 335-13-5-.06(1).

(3). Fee applies to individual unit closure.

(4). Fee applies to landfill permit actions (initial issuance, reissuance, and modifications) that require geological/hydrogeological review.

(5). Minor modifications apply to changes on the FORM 300 for the following: Process Generating Waste, Waste Name, Adding an Additional Landfill, and Generator Name/Address. All other modifications are considered Major Modifications to the Solid Waste Disposal Notification.

(6). Fee applies to Variances as defined in ADEM Admin. Code rule 335-13-8-.01 and applies to landfill and composting permits.

(7). Fee applies to each separate corrective action program proposal or corrective measures implementation plan submitted. Corrective Action Plans (CAPs) which integrate multiple technologies (e.g., pump and treat, biological, chemical, physical, etc.) into a single system shall be charged a single fee for the system. Facilities which have multiple separate programs (e.g., two separate groundwater contamination plumes, one remediated using pump and treat and the other using vapor extraction) shall be charged a separate fee for each separate system. This fee is also applicable to passive corrective measure (e.g. land-use restrictions, monitored natural attenuation, etc.). Modification fee applies to changes of approved Corrective Measures Implementation Plans/ Corrective Action Plans.

**NPDES CONSTRUCTION STORMWATER GENERAL PERMIT AUTHORIZATION**

<u>Type of Activity</u>	<u>Initial Issuance and Reissuance</u>	<u>Modification</u>
Construction General Permit (1)	\$1,000	\$1,000
 <b><u>Additive Fees</u></b>		
Per Acre Increment (project ≥ 5 acres) (2)	\$100/acre	\$100/acre added
Priority Site Fee (3)	\$100; if ≥ 5 acres + \$10 per acre	If acreage increases: \$100 +\$10 per acre added

(1). Includes coverage for < 5 acres. A Modification Fee for change in acreage for a less than 5-acre project does not require an additional per acre fee if the additional acreage increase does not cause the project to equal or exceed 5 acres. The total permit fee for each permit action will not exceed \$10,000, including all additive fees.

(2). An Additive Per Acre Increment Fee is required for projects equal to or greater than 5 acres. The Per Acre Increment Fee is determined by the total permitted disturbance during the life of the overall project as identified by the permit boundary. Permitted disturbance acreage will not be 'moved around' within the permit boundary.

In a modification:

- if the original permit was for < 5 acres and the additional acreage increases to equal or exceed 5 acres, the additive Per Acre Incremental Fee will apply to total acreage of the project, while the initial fee did not include a per acre fee.
- if the original permit was for ≥ 5 acres, the increment fee is assessed for each additional acre not included in the previous permit coverages.

(3). A Priority Site Fee is required for all projects discharging to a waterbody which is listed on the most recently EPA approved 303(d) list of impaired waters for turbidity, siltation, or sedimentation, any waterbody for which a TMDL has been finalized or approved by EPA for turbidity, siltation, or sedimentation, any waterbody assigned the Outstanding Alabama Water use classification in accordance with ADEM Admin. Code r. 335-6-10-.09, and any waterbody assigned a special designation in accordance with ADEM Admin. Code r. 335-6-10-.10. The Priority Site Fee shall be assessed for each initial Notice of Intent (NOI). The Priority

Site Fee for equal to or greater than 5-acre projects will apply to the total acreage of the project and the Priority Site Fee will be assessed for a permit modification for each additional acre not included in the initial permit coverage.

(1) Submittal of the appropriate application fee is required prior to the review of any plans, reports, and, or certifications.

(2) An Assessment and/or Cleanup Review fee is assessed when review of a plan and report is required as determined by the Department.

(3) Property eligibility determinations are valid for a period of one year from date of issuance.

(4) Additive fees are levied on the assessment or cleanup fees as applicable. Total fees due are a sum of assessment and/or cleanup fees and additive fees applicable to a given applicant.

(5) A Public Notice fee is assessed on any Plan or Report which proposes final cleanup remedy recommendations, such as removal of contaminants and/ or an Environmental Covenant.

(6) These fees are assessed annually until required activities are complete and/or terminated by the Department.

(7) Fee is added to a Cleanup Review and/or Report fee, when an Operation and Maintenance (OAM) is required as a part of the approved remedy. Modification of OAM activities would require a modification of the Cleanup Report and submittal of required fees.

(8) This fee applies only to Responsible Party Applicants and is assessed **per acre** of each qualifying property in addition to the voluntary cleanup program application and oversight fees.

\* This fee is enacted by Act 2023-356 of the 2023 Alabama Legislative Session.

**335-1-8-.01      Disposal Fees.**

(a) Beginning on January 1, 2027, the disposal fees are levied upon generators of solid waste who dispose of solid waste at solid waste management facilities permitted by the Department subject to the following rules:

(1) One dollar and thirty cents (\$1.30) per ton for all waste disposed of in a municipal solid waste landfill.

(2) One dollar and thirty cents (\$1.30) per ton or thirty-two cents (\$0.32) per cubic yard for all waste disposed of in public industrial landfills, construction and demolition landfills, non-municipal solid waste incinerators, or composting facilities, which receive waste not generated by the permittee.

(3) Thirty-two cents (\$0.32) per cubic yard for all waste disposed of in a private solid waste management facility, not to exceed one thousand three hundred dollars (\$1,300) per calendar year.

(4) Regulated solid waste that may be approved by the Department as alternate cover materials in landfills shall be assessed the disposal fees applicable in 335-1-8-.01(1)and(2).

(5) Regulated solid waste received from out-of-state for disposal at public solid waste facilities permitted by the Department shall be assessed the same disposal fees applicable in 335-1-8-.01(1)and(2).

(b) The following persons are exempt from payment of fees required by these rules:

(1) Operators of industrial boilers, furnaces, and other processing equipment that burn solid waste generated on site for the purpose of fuel replacement or energy recovery and which are permitted by the Department or by a local air pollution control agency.

(2) Operators of composting facilities which are owned by the Alabama Department of Corrections and which receive only wastes generated by Alabama Department of Corrections facilities and institutions or those composting facilities otherwise exempt from permitting as provided in rules promulgated by the Department.

(3) Operators of industrial boilers, furnaces, and other processing equipment that burn scrap tires for the purpose of fuel replacement or energy recovery and are registered with the Department as provided in rules promulgated by the Department.

(4) Scrap tire processors who receive and process scrap tires and who are permitted by or registered with the Department as provided in rules promulgated by the Department, except that a solid waste disposal facility permitted as a scrap tire processor shall collect the fee on all waste disposed of in its landfill.
