2	APPEARANCES	2		
3		3	In today's report, I will update	
4	COMMISSION MEMBERS PRESENT:	4	you on the budget, introduce a new	
5	H. Lanier Brown, II, Esquire, Chair	5	program to track departmental	
6	W. Scott Phillips, Vice Chair	6	performance, and close with a report on	
7	John H. Lester, D.V.M.	7	our ongoing efforts to obtain	
8	Samuel L. Miller, M.D.	8	appropriate facilities for the Mobile	
9	James E. Laier, Ph.D., P.E.	9	Field Office and Coastal Program.	
10	Mary J. Merritt	10	Budget items first. We are about	
11	Terry D. Richardson, Ph.D.	11	to begin the final month of Fiscal Year	
12			2013, and it is unlikely that proration	
13		!	of the General Fund will be required.	
14	ALSO PRESENT:		Except for federal sequestration-	
15	Robert Tambling, EMC Legal Counsel		related shortfalls that are being	
16	Lance R. LeFleur, ADEM Director		negotiated with EPA, we anticipate	
17	Ron Gore, Air Division		being able to meet all federal grant	
18	Debi Thomas, EMC Executive		obligations.	
19	Assistant	19	The fee increase approved at the	
20		1	last Commission meeting in June has	
21		21	1	
22			on July 30. Absent any unforeseen	
23		23	budget issues, we anticipate that the

Since the State Review Framework audit is performed on a three-year cycle, the dashboard analysis will be the one most frequently presented to you. I'd like to now bring you up to date on the current state of our physical facilities in south Alabama. At the June 21, 2013, Commission	Page 20
2 3 4 5 6 7 8 9 10 11 12 13 14 15	of the percentage of those facilities found to be in significant noncompliance where enforcement action is taken within 360 days, in accordance with EPA's national RCRA enforcement response guidelines. As you can see, the EPA-specified national goal is 80 percent within 360 days. The percentage shown for 2013 is one-fourth of the year and, as with the prior years, it is expected to surpass the EPA 80-percent goal by year-end. Read in conjunction with the somewhat higher rate of identifying SNCs shown in the	Page 18	2 3 4 5 6 7 8 9 10 11 12 13 14 15	completed this tri-annual review, and we expect a report of EPA's findings by Year-End 2013. When those results become available, I will present them to the Commission. Since the State Review Framework audit is performed on a three-year cycle, the dashboard analysis will be the one most frequently presented to you. I'd like to now bring you up to date on the current state of our physical facilities in south Alabama. At the June 21, 2013, Commission meeting, I reported to you that	Page 20
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16	of the percentage of those facilities found to be in significant noncompliance where enforcement action is taken within 360 days, in accordance with EPA's national RCRA enforcement response guidelines. As you can see, the EPA-specified national goal is 80 percent within 360 days. The percentage shown for 2013 is one-fourth of the year and, as with the prior years, it is expected to surpass the EPA 80-percent goal by year-end. Read in conjunction with the somewhat higher rate of identifying SNCs shown in the last chart, you can see that there is	Page 18	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16	completed this tri-annual review, and we expect a report of EPA's findings by Year-End 2013. When those results become available, I will present them to the Commission. Since the State Review Framework audit is performed on a three-year cycle, the dashboard analysis will be the one most frequently presented to you. I'd like to now bring you up to date on the current state of our physical facilities in south Alabama. At the June 21, 2013, Commission meeting, I reported to you that following termination of the existing	Page 20
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16	of the percentage of those facilities found to be in significant noncompliance where enforcement action is taken within 360 days, in accordance with EPA's national RCRA enforcement response guidelines. As you can see, the EPA-specified national goal is 80 percent within 360 days. The percentage shown for 2013 is one-fourth of the year and, as with the prior years, it is expected to surpass the EPA 80-percent goal by year-end. Read in conjunction with the somewhat higher rate of identifying SNCs shown in the last chart, you can see that there is substantial and timely RCRA enforcement	Page 18	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16	completed this tri-annual review, and we expect a report of EPA's findings by Year-End 2013. When those results become available, I will present them to the Commission. Since the State Review Framework audit is performed on a three-year cycle, the dashboard analysis will be the one most frequently presented to you. I'd like to now bring you up to date on the current state of our physical facilities in south Alabama. At the June 21, 2013, Commission meeting, I reported to you that following termination of the existing lease at the Brooklyn Aeroplex, the	Page 20
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18	of the percentage of those facilities found to be in significant noncompliance where enforcement action is taken within 360 days, in accordance with EPA's national RCRA enforcement response guidelines. As you can see, the EPA-specified national goal is 80 percent within 360 days. The percentage shown for 2013 is one-fourth of the year and, as with the prior years, it is expected to surpass the EPA 80-percent goal by year-end. Read in conjunction with the somewhat higher rate of identifying SNCs shown in the last chart, you can see that there is substantial and timely RCRA enforcement activity within the state.	Page 18	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18	completed this tri-annual review, and we expect a report of EPA's findings by Year-End 2013. When those results become available, I will present them to the Commission. Since the State Review Framework audit is performed on a three-year cycle, the dashboard analysis will be the one most frequently presented to you. I'd like to now bring you up to date on the current state of our physical facilities in south Alabama. At the June 21, 2013, Commission meeting, I reported to you that following termination of the existing lease at the Brooklyn Aeroplex, the Coastal Program had just leased office	Page 20
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19	of the percentage of those facilities found to be in significant noncompliance where enforcement action is taken within 360 days, in accordance with EPA's national RCRA enforcement response guidelines. As you can see, the EPA-specified national goal is 80 percent within 360 days. The percentage shown for 2013 is one-fourth of the year and, as with the prior years, it is expected to surpass the EPA 80-percent goal by year-end. Read in conjunction with the somewhat higher rate of identifying SNCs shown in the last chart, you can see that there is substantial and timely RCRA enforcement activity within the state. The slides I have shown you here	Page 18	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18	completed this tri-annual review, and we expect a report of EPA's findings by Year-End 2013. When those results become available, I will present them to the Commission. Since the State Review Framework audit is performed on a three-year cycle, the dashboard analysis will be the one most frequently presented to you. I'd like to now bring you up to date on the current state of our physical facilities in south Alabama. At the June 21, 2013, Commission meeting, I reported to you that following termination of the existing lease at the Brooklyn Aeroplex, the Coastal Program had just leased office facilities approximately nine miles	Page 20
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20	of the percentage of those facilities found to be in significant noncompliance where enforcement action is taken within 360 days, in accordance with EPA's national RCRA enforcement response guidelines. As you can see, the EPA-specified national goal is 80 percent within 360 days. The percentage shown for 2013 is one-fourth of the year and, as with the prior years, it is expected to surpass the EPA 80-percent goal by year-end. Read in conjunction with the somewhat higher rate of identifying SNCs shown in the last chart, you can see that there is substantial and timely RCRA enforcement activity within the state. The slides I have shown you here today are a few key dashboards which we	Page 18	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20	completed this tri-annual review, and we expect a report of EPA's findings by Year-End 2013. When those results become available, I will present them to the Commission. Since the State Review Framework audit is performed on a three-year cycle, the dashboard analysis will be the one most frequently presented to you. I'd like to now bring you up to date on the current state of our physical facilities in south Alabama. At the June 21, 2013, Commission meeting, I reported to you that following termination of the existing lease at the Brooklyn Aeroplex, the Coastal Program had just leased office facilities approximately nine miles further inland at an acceptable cost.	Page 20
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21	of the percentage of those facilities found to be in significant noncompliance where enforcement action is taken within 360 days, in accordance with EPA's national RCRA enforcement response guidelines. As you can see, the EPA-specified national goal is 80 percent within 360 days. The percentage shown for 2013 is one-fourth of the year and, as with the prior years, it is expected to surpass the EPA 80-percent goal by year-end. Read in conjunction with the somewhat higher rate of identifying SNCs shown in the last chart, you can see that there is substantial and timely RCRA enforcement activity within the state. The slides I have shown you here today are a few key dashboards which we have determined give the most accurate	Page 18	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21	completed this tri-annual review, and we expect a report of EPA's findings by Year-End 2013. When those results become available, I will present them to the Commission. Since the State Review Framework audit is performed on a three-year cycle, the dashboard analysis will be the one most frequently presented to you. I'd like to now bring you up to date on the current state of our physical facilities in south Alabama. At the June 21, 2013, Commission meeting, I reported to you that following termination of the existing lease at the Brooklyn Aeroplex, the Coastal Program had just leased office facilities approximately nine miles further inland at an acceptable cost. It was also noted that this is a less-	Page 20
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21 22	of the percentage of those facilities found to be in significant noncompliance where enforcement action is taken within 360 days, in accordance with EPA's national RCRA enforcement response guidelines. As you can see, the EPA-specified national goal is 80 percent within 360 days. The percentage shown for 2013 is one-fourth of the year and, as with the prior years, it is expected to surpass the EPA 80-percent goal by year-end. Read in conjunction with the somewhat higher rate of identifying SNCs shown in the last chart, you can see that there is substantial and timely RCRA enforcement activity within the state. The slides I have shown you here today are a few key dashboards which we	Page 18	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21 22	completed this tri-annual review, and we expect a report of EPA's findings by Year-End 2013. When those results become available, I will present them to the Commission. Since the State Review Framework audit is performed on a three-year cycle, the dashboard analysis will be the one most frequently presented to you. I'd like to now bring you up to date on the current state of our physical facilities in south Alabama. At the June 21, 2013, Commission meeting, I reported to you that following termination of the existing lease at the Brooklyn Aeroplex, the Coastal Program had just leased office facilities approximately nine miles further inland at an acceptable cost. 		Page 29			Page 31
1	say aye.		7	came up earlier when we checked it out.	
2	DR. RICHARDSON: Mr. Chairman,		1	Anyway, looking at just the area around	
-	I would like to have discussion,			Troy University in Troy as an example,	
Į.	please.			this aerial photograph points out	
5	CHAIRMAN BROWN: I'm sorry.		l	eleven different sites on the slide;	
6	Any discussion?		l	one is just off the slide. Every one	
7	DR. RICHARDSON: I would like		i	of these except for one has had	
8	to move to postpone the question until		l .	moderate to severe noncompliance	
	the Commission meeting following such		l .	issues. I wish I'd be able to show you	
1	time that the Title IX Civil Rights		l .	the slide because it showed some of	
	Action has been resolved.		ļ	those. And you've seen all this. I've	
12	CHAIRMAN BROWN: Title VI.		•	sent you an extended larger file.	
13	DR. RICHARDSON: Title VI.		13	But what happens in many cases is	
14	Thank you.		-	no phasing is done. The whole site is	
15	CHAIRMAN BROWN: Is there a			cleared; no phasing is done or improper	
16	second?			BMPs are put in or BMPs are not	
17	DR. LESTER: Second.		Į.	monitored. In this particular site, I	
18	CHAIRMAN BROWN: Is there any			thought this was a this area is	
19	further discussion?			still bare. That slope is nothing's	
20	(No response.)			been done with that slope for months	
21	CHAIRMAN BROWN: All in favor			and months and months. It's never been	
22	of Commissioner Richardson's motion to			stabilized. That's just one example.	
23	postpone the Schaeffer/Eaton Black Belt			And you can see over time this is	
				•	
		Page 30			Page 32
1	Citizens' public comments until after		1	two different projects, two different	
1	the Title VI Complaint has been			phases. Month after month after month,	
	resolved say aye.			you go through a whole series of things	
4	(Unanimous.)			and there's an initial noncompliance on	
5	CHAIRMAN BROWN: Any opposed?			these sites and we don't get a rapid	
6	(No response.)			return to compliance.	
7	CHAIRMAN BROWN: So be it.		7	This is a construction entrance on	
8	Then Mr. Mullen. Mr. Mullen, welcome.		8	a site. It was that way beginning back	
9	And as you know, ten minutes.			around February or March of this year,	
10	MR. MULLEN: Thank you. I may			and it's until just recently has	
11	be a little long. I'll just cut it			stayed that way. You can't see it in	
12	off. I just want to talk about an		12	this picture. You can see it in this	
13	example of the problem with ineffective			one. There has been an unprotected	
14	enforcement of construction stormwater		14	storm drain there the whole period of	
15	permits. Back when he was acting		15	the time until just recently.	
16	Director, John Hagood said that the		16	This site has stayed largely bare	
17	enforcement on these permits is out of		17	the whole time. Yes, it's stable now	
18	control, and it's still out of control.		18	because the project is over, but sites	
19	It's not going to work. I had a		19	are there's no general deterrence.	ļ
20	whole host of videos to show. But		20	You know, when you have this many sites	
	looking at that's what happens		21	that are having problems, the	
	sometimes when you put video slides in		22	Department's enforcement compliance	
					1
23	the PowerPoint. For some reason it			efforts are not creating deterrence.	an

There is a recent picture. It was in the other thing. But the kind of sediment that was in there from an earlier project, the kind of erosion we had on this project because of failure to have good erosion-sediment control plan. Again, not a no no proper drainage plan, failed to stabilize an area where a lot of water was going to come over. Just poor planning. And, again, another big pool of sediment downstream of this site. This is an earlier construction site going to the same drainage. Again, large amounts of	11 22 33 44 55 66 77 88 99 100 111 122 133 144 155 166 177 188 199 200	or have some independent party review those plans. I have former students that work for an engineering firm who tell me that customers will not do a good robust erosion settlement control plan because they know the consequences of failure are not that much of a risk. Same site. Here's the inappropriate fence poorly located. Poor gentleman out here on the Fourth of July trying to do something about it. Futile. This is another project. There haven't been any violations observed that we've seen there yet. It was well done. This was a successful site. There was a cease order on this site. The contractor on this site sent, I think, 20 or 30 people to erosion settlement control training at	
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21	get all this (indicating) is downstream from that site. This is a recent picture. This is a recent I'm sorry. This is not the recent. There is a recent picture. It was in the other thing. But the kind of sediment that was in there from an earlier project, the kind of erosion we had on this project because of failure to have good erosion-sediment control plan. Again, not a no no proper drainage plan, failed to stabilize an area where a lot of water was going to come over. Just poor planning. And, again, another big pool of sediment downstream of this site. This is an earlier construction site going to the same drainage. Again, large amounts of sediment. Another side of that same	11 22 33 44 55 66 77 88 99 100 111 122 133 144 155 166 177 188 199 200 211	or have some independent party review those plans. Co	mmission Meeting			Augu	ist 16, 2013
		Page 37			Page 39
1	other sites that I've shown you		1	Word slides. You have them. You also	
1	previously, same contractor. They're		1	have a letter that I gave Mr. Brown	
1	falling back into the same pattern.			and you should all get a copy of it	
4	Another contractor. You know, just			indicating what we see. We would like	
5	about every site I've been looking		l	to see the Department or the Commission	
6	at construction sites in the Troy area			or both put together a group of	
ì	since about 1998, and I can count on			stakeholders to look at effectiveness	
8	one hand the ones that had good erosion		8	and to make sure that metrics are being	
9	sediment control, and I think one of		9	used, examined, that will actually say,	
10	those was by accident. Even after		10	Are we effective? What percentage of	
11	in this case, even after the consent		11	sites are in noncompliance? How long	
12	order and the penalty was issued, there		12	does it take a site to return to	
1	still continued for about a month and a		13	compliance after there's a warning	
1	half, two months after that to continue		14	letter, after there's an NOV, after	
1	to be preventable runoff coming off the		!	there's an order? How many repeat	
	site.			violators do we have out there? Until	
17	Another project. Just on and on		17	we measure those sorts of things, we're	
	and on. You've got the you've got		18	spending a lot of taxpayer money to do	
1	the complete slide show. It's redacted			enforcement, we're pretending to do	
F	to make sure we're not putting any			enforcement, but we're not doing any	
1	companies' names up there. This			good enforcement.	
1	particular site was interesting. If		22	I appreciate your time. And I	
23	you go to record, you find out EPA did		23	probably even ran over a little bit.	
		Page 38			Page 40
1	an inspection of it. The EPA's		1	CHAIRMAN BROWN: That's all	
2	inspection was so late in the process		2	right. Thank you, Mr. Mullen.	
3	that everything looked pretty good.		3	Any comments by the Department?	
	And one of the problems is, if you're		4	(No response.)	
i	counting grapefruits and what you're		5	CHAIRMAN BROWN: Thank you.	
	looking for is apples, we don't know		6	Any questions or comments from the	
	what's going on with compliance. You		7	Commission?	
1	know, if all you're counting I		8	(No response.)	
1	worked in education, and if all you're		9	CHAIRMAN BROWN: Well, I will	
1	counting is how many people come to			entertain a motion to adjourn.	
1	your seminar and that sort of thing,		11	MR. PHILLIPS: I move we	
1	you're not evaluating what's happening,			adjourn.	
ļ	you don't know what's going on. And	1	13	DR. LAIER: Second.	
	looking at the effectiveness of enforcement, if all we're doing is	1	14	CHAIRMAN BROWN: All in favor?	
	we're counting how many inspections,		15 16	(Unanimous.) CHAIRMAN BROWN: Meeting	
17	how many orders, and that sort of thing			adjourned.	
	and we're not looking at are we		18	aujournou.	
	returning them to compliance, what		19		
20	percentage of them are in		20		
21	noncompliance, we've got serious	1	21		
1	noncompliance, we've got serious problems.		21 22

PUBLI	IC COMMENT PERIOD	3 & Attachments

^{*} The Agenda for this meeting will be available on the ADEM website, <u>www.adem.alabama.gov</u>, under Environmental Management Commission.

^{**} The Minutes for this meeting will be available on the ADEM website under Environmental Management Commission.

- 1. CONSIDERATION OF MINUTES OF MEETING HELD ON JUNE 21, 2013
- 2. REPORT FROM THE DIRECTOR
- 3. REPORT FROM THE COMMISSION CHAIR
- 4. CONSIDERATION OF ADOPTION OF PROPOSED AMENDMENTS TO ADEM ADMIN. CODE DIVISION 335-3, AIR POLLUTION CONTROL PROGRAM REGULATIONS

The Commission will consider proposed amendments to ADEM Admin. Code Division 335-3, Air Pollution Control Program Regulations, Rules 335-3-1-.02, 335-3-10-.01, 335-3-10-.02, 335-3-11-.01, 335-3-11-.06, and Appendix C. Revisions to the Division 3 Code are being proposed to incorporate by reference changes to the EPA's New Source Performance Standards (NSPS), and National Emissions Standards for Hazardous Air Pollutants (NESHAPs). The definition of volatile organic compounds (VOCs) in Chapter 335-3-1 is also being proposed for revision to be consistent with EPA's revisions. Chapter 335-3-1 is considered part of the federally-enforceable State Implementation Plan (SIP). Revisions to this Chapter are proposed to be incorporated into Alabama's SIP. The Department held a public hearing on the proposed amendments on July 11, 2013.

5. <u>EAST HUNTSVILLE/MADISON COUNTY CIVIC ASSOCIATION, INC. V. ADEM, AND VULCAN CONSTRUCTION MATERIALS, LP, EMC DOCKET NO. 13-01 (NPDES-RELATED MATTER)</u>

The Commission will consider the Hearing Officer's "Order/Recommendation" on Respondent ADEM's and Intervenor Vulcan Construction Materials, LP's Motions to Strike and Dismiss in this appeal/request for hearing regarding ADEM's issuance of NPDES Permit No. AL0075507 to Vulcan Construction Materials, LP, Gurley Quarry, Madison County. This item was tabled to this meeting at the last meeting of the Commission on June 21, 2013.

- 6. OTHER BUSINESS
- 7. <u>FUTURE BUSINESS SESSION</u>

PUBLIC COMMENT PERIOD

(The requests from the public to address the Commission are attached to the agenda.)

Request 1

Michael William Mullen, Choctawhatchee Riverkeeper SUBJECT: Regulation of construction stormwater (Chair Brown will recommend that the Commission approve the request.)

Request 2

David A. Ludder, Esq.
SUBJECT: Title VI Compliance at the
Alabama Department of Environmental Management
(Chair Brown will recommend that the Commission approve the request.)

Request 3

Mary Schaeffer and Benjamin Eaton, on behalf of Black Belt Citizens Fighting for Health and Justice SUBJECT: Arrowhead Landfill and the City of Uniontown's Wastewater Treatment Plant (Chair Brown will recommend that the Commission approve the request.)

AUG 2013 ENV. MGMT.

H. Lanier Brown, II, Esq, Chair c/o Environmental Management Commission P.O. Box 301463 Montgomery, AL 36130-1463

July 27, 2013

Dear Chairman Brown:

I am writing to request approval for a presentation at the August 16th AEMC meeting. The presentation will address regulation of construction stormwater CSW). It will show examples of noncompliance by a subset of CSW permit holders in the Troy area over approximately. Note that my observation is that almost every construction site that I have patrolled has had significant compliance issues and many have had offsite pollutant transport.

A good many of these CSW permit holders have been on the receiving end of compliance actions by ADEM. Despite this, in far too many instances, noncompliance has continued largely unabated for much too long - often months.

The fact that so many sites fall into noncompliance is an indication that ADEM has not created and is not creating general deterrence sufficient to achieve good rates of compliance by CSW permit holders. The fact that it often takes so long for return to compliance and that many permit holders are serial violators, repeating violations on site after site after site is an indication that ADEM has not created and is not creating general deterrence.

The presentation will show a few samples of failure to effectively enforce showing permitting and compliance enforcement actions over time and images from the sites over the same time periods. The PPP that will be used in the presenta-

tion has been redacted to remove all permit numbers and permit holder names. What will be shown is part of a much larger PPP with almost 100 slides. I will be sending Ms. Thomas a separate e-mail with a link to a DropBox file with the larger presentation so that she might share that presentation with commissioners. At this time I am attaching a few introductory slides and an example of the format the remainder of the presentation will have.

Many in the environmental community have spent considerable time and resources over the years to document ADEM's failure to effectively enforce CSW permits and to convey that failure as well as suggestions for improvement to ADEM. To date there has been little in the way of effective response from the Department. It would almost seem that the Department does not want to effectively enforce CSW permits. This is unfortunate because the current situation does not utilize resources well as it leads to in some cases a necessity for repeated inspections and very numerous correspondence, calls and meetings.

Once again, on the afternoon of the August 16th meeting members of the environmental community will meet with the Director and staff. CSW permit compliance and effective enforcement will be one of the main topics of the meeting. There will be a request to the Department for it to begin to collect some data that will give an accurate depiction of the effectiveness of the CSW compliance enforcement efforts at the Department. Currently there does not appear to be any data captured that provides a true measurement of the effectiveness of compliance enforcement. As a result effectiveness is judged not by the degree to which compliance is occurring but rather by the number of activities—inspections, enforcement actions etc. This does not indicate what percentage of facilities are in compliance, how many repeat violations occur at sites, how many permit holders are serial violators or critically, how soon noncompliant sites are returned to compliance.

In addition some suggestions will be made both for changes to the permitting process and for compliance enforcement that very possibly could lead to increased compliance rates.

Respectively submitted,
Mully Willy Mully

Re: Request to Address the Environmental Management Commission on August 16, 2013, regarding Arrowhead Landfill and the City of Uniontown's Wastewater Treatment Plant

Dear Chairman Brown:

Black Belt Citizens Fighting for Health and Justice is a non-profit organization of concerned citizens in Uniontown, Alabama. On behalf of our group, the two undersigned members hereby request to be placed on the agenda to address the Environmental Management Commission (EMC) at its next meeting to be held on August 16, 2013. We have two issues that we wish to bring before the EMC.

Regarding the Arrowhead Landfill, we will present to the EMC the test results obtained by Dr. Betsy Dobbins, Department of Biology, Samford University, from her water sampling of both surface run-off from the landfill and well water on Booker Gipson's property adjacent to the landfill. These test results reveal: a) elevated levels of conductivity, and b) elevated levels of arsenic.

We will request ADEM's immediate enforcement action against Arrowhead Landfill to prevent more toxic landfill contaminants from migrating offsite, as well as ADEM's further testing to identify and quantify all contaminants, damages and health risks, and ADEM's supervision and oversight of Arrowhead's remediation of the situation. Our citizens want to be kept fully informed of ADEM's and Arrowhead's actions and progress in this matter.

Regarding the City of Uniontown's long-overduc and much-needed upgrades to its Wastewater Treatment Plant (WWTP), we will reiterate to the EMC our strenuous objections to the proposed location for construction of a second spray field. Mr. John Stevens, PE, Vice President of Sentell Engineering, Inc. in Tuscaloosa, Alabama, is the engineer in charge of this project. The proposed site, on the south side of Perry County Road 53 (coordinates of approximately 32-23.176N, 87-30.830W), is completely unsuitable for use as a wastewater spray field for many compelling reasons, which we will discuss in detail.

We will request ADEM's collaboration and support to facilitate finding a reasonable and appropriate alternative to resolve this issue for the long term for all the various stakeholders in the City of Uniontown's WWTP, before the grant and loan funds are mis-spent in building a new spray field that is doomed to fail.

We ask that you approve this request for the undersigned members of our group to speak on behalf of the Black Belt Citizens Fighting for Health and Justice and other Uniontown citizens. We appreciate your consideration of our request. Thank you very much.

Sincerely,

ENVIRONMENTAL MANAGEMENT COMMISSION RESOLUTION

WHEREAS, the Alabama Department of Environmental Management gave notice of a public hearing on the proposed revisions to ADEM Admin. Code 335-3 of the Department's Air Division – Air Pollution Control Program Rules in accordance with <u>Ala. Code</u> § 22-22A-8 (2006 Rplc. Vol.) and <u>Ala. Code</u> § 41-22-4 (2000 Rplc. Vol.); and

WHEREAS, a public hearing was held before a representative of the Alabama Department of Environmental Management designated by the Environmental Management Commission for the purpose of receiving data, views and arguments on the amendment of such proposed rules; and

WHEREAS, the Alabama Department of Environmental Management has reviewed the oral and written submissions introduced into the hearing record, and has prepared a concise statement of the principal reasons for and against the adoption of the proposed rules incorporating therein its reasons for the adoption of certain revisions to the proposed rules in response to oral and written submissions, such revisions, where appropriate, having been incorporated into the proposed rules attached hereto; and

WHEREAS, the Environmental Management Commission has considered fully all oral and written submissions respecting the proposed amendments and the Reconciliation Statement prepared by the Alabama Department of Environmental Management.

NOW THEREFORE, pursuant to Ala. Code. §§ 22-22A-5, 22-22A-6, 22-22A-8 (2006 Rplc. Vol.), and Ala. Code. § 41-22-5 (2000 Rplc. Vol.), as duly appointed members of the Environmental Management Commission, we do hereby adopt and promulgate these revisions to division 335-3 [335-3-1-.02/Definitions (Amend), 335-3-10-.01/General (Amend); 335-3-10-.02/Designated Standards of Performance (Amend); 335-3-11-.01/General (Amend); 335-3-11-.06/National Emission Standards for Hazardous Air Pollutants for Source Categories (Amend);

ENVIRONMENTAL MANAGEMENT COMMISSION RESOLUTION

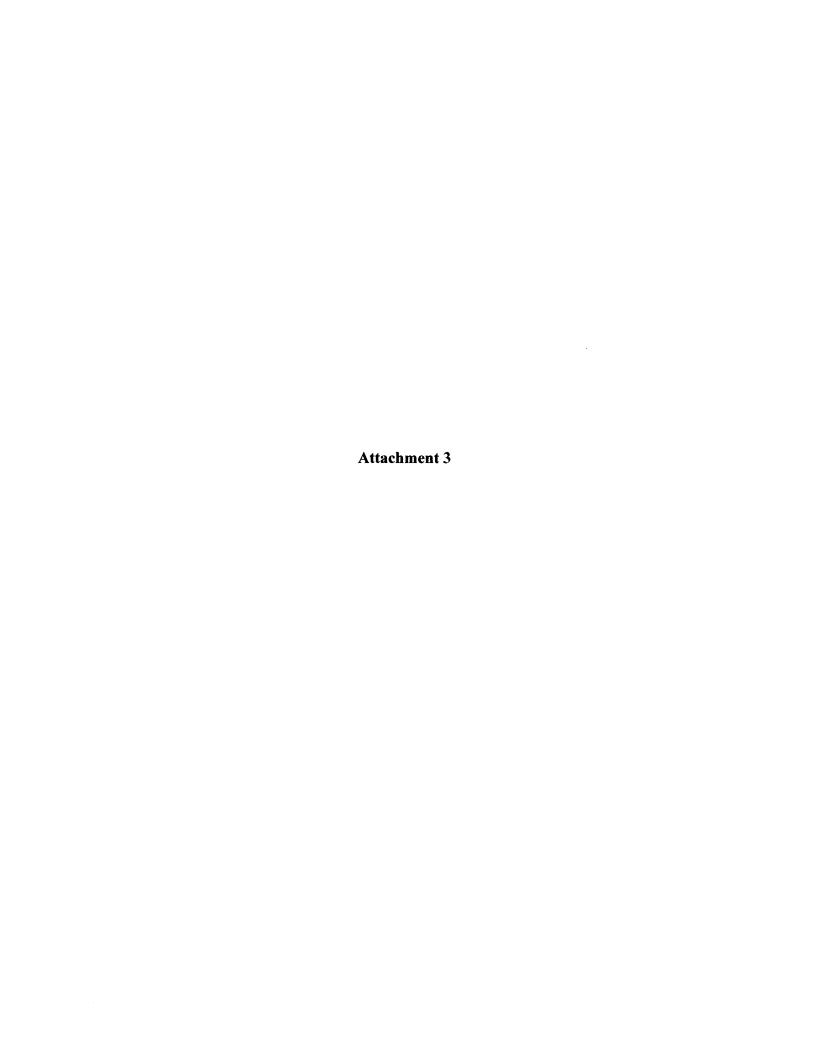

Appendix C/EPA Regulations Reference Documents for New Source Performance Standards and National Emission Standards for Hazardous Air Pollutants (Amend)] of the Department's Air Division – Air Pollution Control Program rules, administrative code attached hereto, to become effective thirty-five days, unless otherwise indicated, after filing with the Alabama Legislative Reference Service.

ENVIRONMENTAL MANAGEMENT COMMISSION RESOLUTION

This cause having come before the Environmental Management Commission pursuant to the Hearing Officer's "Order/Recommendation" on Respondent ADEM's and Intervenor Vulcan Construction Materials, LP's Motions to Strike and Dismiss, the Commission hereby ORDERS, ADJUDGES, and DECREES as follows:

- 1. That the Hearing Officer's "Order/Recommendation" on Respondent ADEM's and Intervenor Vulcan Construction Materials, LP's Motions to Strike and Dismiss is hereby adopted; and
- 2. That pursuant to the adoption of the Hearing Officer's "Order/Recommendation," Respondent ADEM's and Intervenor Vulcan Construction Materials, LP's Motions to Strike and Dismiss are hereby granted and the Hearing Request filed by Mr. Binkley on behalf of the East Huntsville/Madison County Civic Association, Inc. is hereby struck and this matter is dismissed; and
- 3. That this action has been taken and this Order shall be deemed rendered effective as of the date shown below; and
- 4. That a copy of the Order, along with a copy of the Hearing Officer's "Order/Recommendation," attached hereto and made a part hereof, shall be forthwith served upon each of the parties hereto either personally, or by certified mail.

ORDER/RECOMMENDATION

This matter is before the undersigned on the Department's and Intervenor, Vulcan Materials, LP's ("Vulcan") Motions to Strike and Dismiss. The primary basis for the Motions is Ala. Admin. Code r. 335-2-1-30, which prohibits a non-attorney from representing a party before the Commission. Hence, the Department and Vulcan argue that the failure of an attorney for Petitioner to sign the subject notice of appeal requires the dismissal of this matter.

Clifford H. Binkley filed a response to the Motions and states that although the notice of appeal was not signed an attorney, a typographical error existed in the notice and that he meant to bring the appeal on behalf of himself and not on behalf of the East Huntsville/Madison County Civic Association, Inc. ("Association"). However, the face of the notice clearly states the appealing party is the Association and other portions of the notice indicate the Association is the party bringing the appeal.

Based on precedent, the undersigned is bound to agree with the Department's and Vulcan's position. See Canaan Systems, Inc. v. Department, EMC Docket No. 09-06, 2009 WL 2634671 (August 21, 2009). Therefore, the undersigned RECOMMENDS that the Department's and Vulcan's

Motions to Strike and Dismiss be GRANTED.

Petitioner shall have until June 7, 2013 to file objections to this Recommendation and the Department may file any reply by June 11, 2013.

Done this 23rd day of May, 2013.
